Dear Mr. King

I have recieved letter from you before concerning this water right. Apparently this was a mis-understood concept when my husband filed for it. In explaining our position it may shed more light to your position.

We bought the 16 acres on Dignat Point Road in Lost Falls and someone said to be safe before we dig a well we should file for water rights to insure us that some one else would not later dig a well and drain our well. It is only our summer home for the time being as we are improving it for our retirement.

We do not have any irrigation system. We have only a medium to poor well and are hoping to sink another one a few more years down the line. There is no surface water on our property.

If there is any such thing as a water right for our situation please let me know what we must do to assist you.

Dear Mr. McCorkle:

I would like to conduct the required examination of your irrigation system this year. Since the system must be in operation during the examination, you or your agent will probably have to be present. This is undoubtedly inconvenient, but it is a necessary step to develop a water right.

If I do not receive word from you by November 15, 1982, I will assume the water is not being used and commence cancellation procedures.
