Dear Mr. Johnson:

As requested in your letter of May 12, 1983 an ammended application for a water permit is submitted along with the \$20.00 filing fee.

After reviewing the original application and a map of the area, I believe the point of diversion to be Lot 3(SW $\frac{1}{4}$ NE $\frac{1}{4}$) Sec. 17, Twp 48N Rge 4W, Kootenai county instead of Sec. 8 as indicated in your letter. The enclosed map of the area shows Park Addition to Rockfords Bay Summer Homes, Inc. circled in red. The diversion point in Se.7 indicated in your letter is indicated in green. Mr. Tanner, who made the survey, is on vacation. I was not able to contact him.

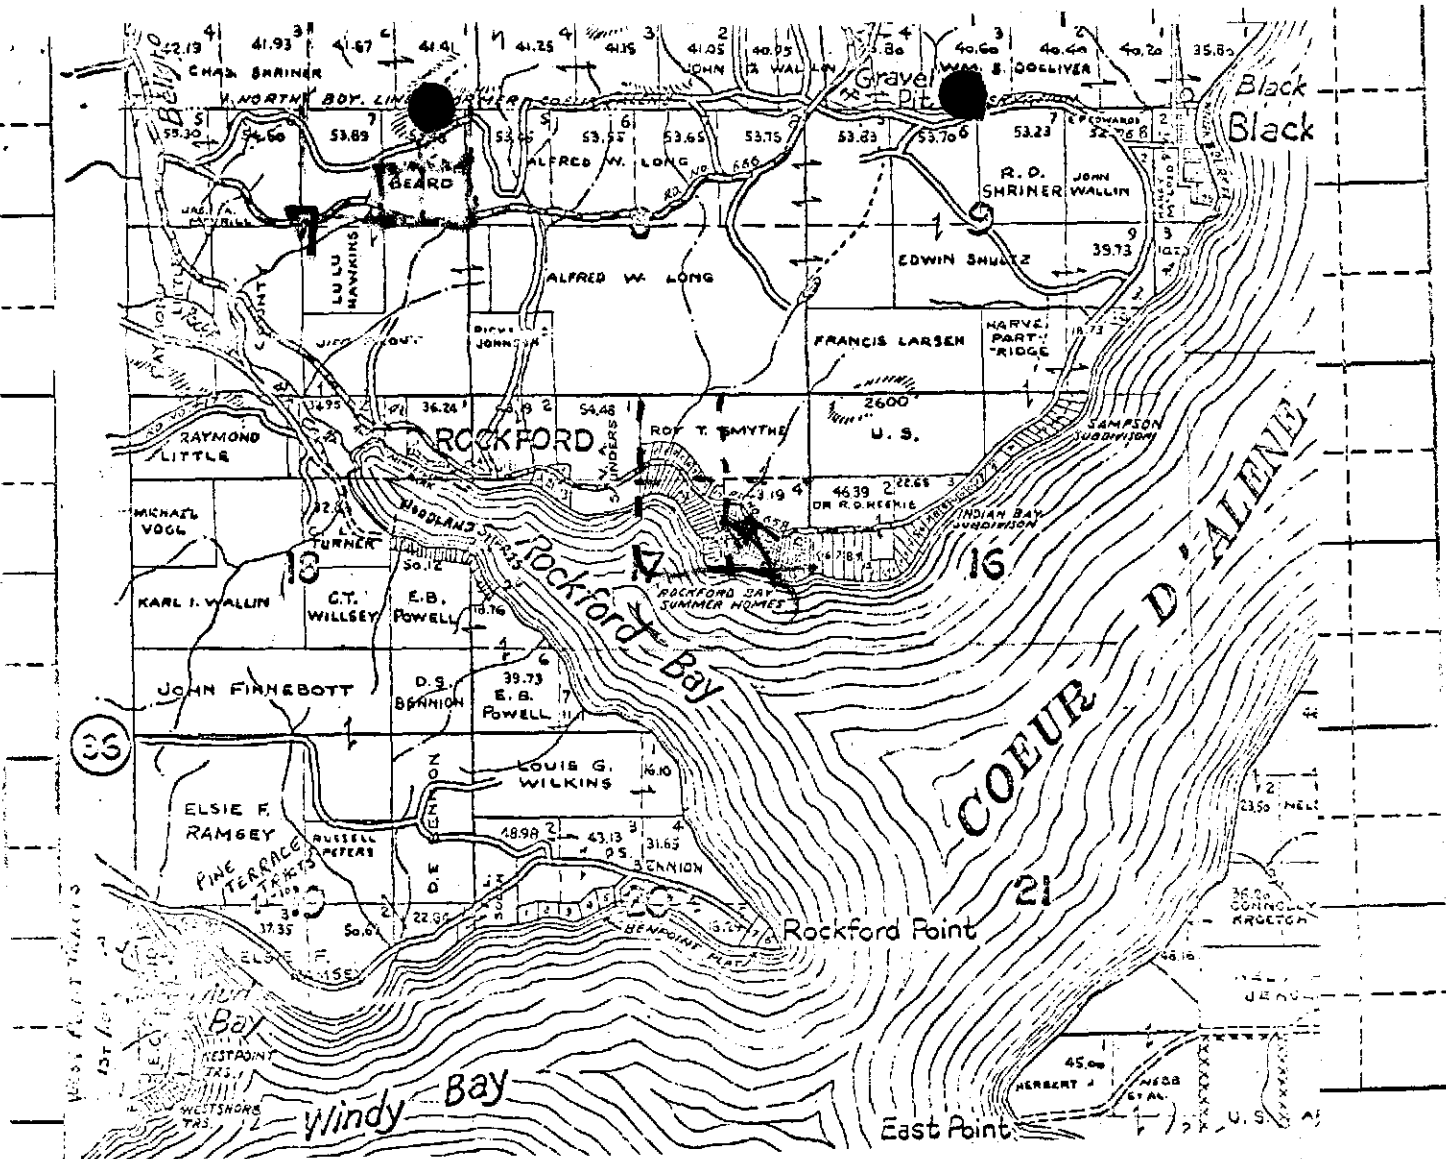

Please advise if additional information is needed or if the ammended application is in error.

Gentlemen:

We have received a well drillers report indicating that a well was drilled for you in Section 17, Township 48N, Range 4W, B.M., Kootenai County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stockwatering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which it was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions regarding this matter, please contact this office.

Gentlemen:

We have received a well drillers report indicating that a well was drilled for you in Section 17, Township 48N, Range 4W, B.M., Kootenai County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stockwatering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which it was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions regarding this matter, please contact this office.

Very truly yours,

FRED EISENBARTH
Northern District Manager
