RE: WATER RIGHT NO. 95-07449

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

Sincerely,

A handwritten signature in cursive script, reading "Shelley W. Keen". The signature is written in dark ink and is positioned above the printed name and title.

RE: WATER RIGHT NO. 95-07449

Dear Water Right Holder(s):

I previously forwarded to you an Application for Amendment so that you could amend your permit to depict your water right as it has actually been developed.

As of this date, I have not received this amendment. If I do not receive the amendment within fourteen (14) days, a Water Right License will be issued for less than could have been allowed. In case the amendment form I sent you has been misplaced, a new one is enclosed. Please note that the filing fee for this amendment is \$50.00.

If you have any questions, please call me at (208) 327-7946.

RE: WATER RIGHT NO. 95-07449

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return it with the \$50.00 filing fee within sixty (60) days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Also, as a related matter please note that two of your existing licensed water rights, Nos. 95-07056 and 95-07057, show points of diversion that are apparently no longer in use. If that is correct, you should file an Application for Transfer to change the points of diversion for those rights to reflect the locations of the wells that you are actually diverting from. You might also consider adding the second well on your system to licensed rights 95-07059, 95-07058, and 92-07002. I have enclosed photocopies of your existing licenses for you. I have also enclosed a transfer form and instructions.

Sincerely,

Shelley W. Keen

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is approved Date 5/30/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.

This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.

This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.

The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.

Approval of this drilling permit does not authorize trespass on the land of another party.

This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

This drilling permit does not represent a right to divert and use the water of the State of Idaho.

If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

RE: PERMIT NO. 95-07449

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: PERMIT NO. 95-7449

Dear Ms. Fleck:

The above referenced well was drilled in 1974. The well was to be tied into the existing water system at Heyburn State Park, in 1976. A moratorium on construction and development was imposed before construction on the new water system began. The well was capped until the moratorium was lifted. In the summer of 1989 the well was to be tied into the existing system, but it was discovered that the well has a sharp bend in it and is also blocked at about the 80' level.

A new well will be drilled in close proximity to the above referenced well; And the new water system constructed this summer. The new well and water system should be complete and operational by mid summer 1992, therefore the Department would like to request an extension to July 1, 1993.

If you have any questions please call me at 327-7444.

RE: Permit No. 95-7449

Dear Ms. Fleck:

Our department drilled and began developing a new well and water system at Heyburn State Park in 1974. In 1976, the necessary development and testing of the well was completed. Construction of the distribution system that would tie the new well into the existing water system and the planned expansion was to begin in 1976.

In 1976, following notification from the federal government (the Department of Interior Solicitor's Office) that cabin site leasing at Heyburn may be a violation of the State's patent, the land board imposed a moratorium on construction and development at Heyburn State Park. Cabin site leases were not renewed because of the moratorium, though cabin owners continued to use the sites.

In 1977, in spite of the moratorium, the Justice Department filed suit against the state to recover the property which is Heyburn State Park. The Coeur d'Alene Tribe intervened on behalf of the Justice Department. The federal district court ruled that the state's leasing of the property did not violate the terms of the patent. Justice and the Tribe appealed to the ninth circuit, which remanded the case back to district court. It is once again on appeal to the ninth circuit and we have been awaiting a ruling since the arguments were heard last October (1985). We anticipate that whatever the outcome, the matter will be appealed once again--probably to the United States Supreme Court. Cabin site leasing has been reinstituted, but owners are limited to maintaining their structures. Until this litigation is resolved one way or another (either by clearing our ownership and allowing continued leasing, or returning the property to the Tribe or the federal government), we cannot undertake further development of the property, nor are we allowing cabin owners to do so. Since the well was drilled originally to provide domestic water for the large number of lessees, and there is some question whether property will continue to be leased or even owned by the department, the department needs an extension on the well in question.

The well was capped in 1976 and remains so at this time. If you have any questions or need additional information, please feel free to call me.

Sincerely,

Roger R. Ford

Dear Mr. Allred:

We have again received your request for proof of beneficial use of the above-referenced well.

Although the well has been drilled and capped for some time, it still has not been put to use. If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
