Dear Mr. Goelzer:

We are in receipt of the licensing amendment you submitted in connection with the above referenced permit. Enclosed is Department Receipt No. 33742 in the amount of \$20.00.

In reviewing the amendment, we notice that you have added irrigation for 10 acres within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 17, Twp 52N, Rge 4W. However, we cannot add this use to this water right. The permit was originally filed for domestic use for 100 trailer spaces; if we were to add the irrigation use, the water right would be expanded and we cannot legally do this. If you are irrigating 10 acres as suggested on the amendment form, I suggest that you apply for another water right permit. I have enclosed an application form with instructions for your convenience.

In order to process your licensing amendment in a timely fashion, we will delete the irrigation use from the form unless you wish to contest this action. If we do not hear from you on or before February 27, 1984, we will make the changes on your licensing amendment form and will submit your amendment and license for the Director's signature.

Dear Mr. Goelzer:

One of the conditions of approval of your water Permit No. 95-7253, 95-7254 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Homer F. Pointer, President
Twin Lakes Improvement Association
Twin Lakes, Idaho

Dear Mr. Pointer:

In response to your letter of March 5, 1973, protesting the above referenced application, this application does not list Twin Lakes as its source, but rather groundwater with the proposed well site approximately one-half mile south of the lake.

The following are the principle items we can consider in accepting a letter of protest and at a conference and/or hearing in approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

As long as unappropriated public waters exist, any individual, corporation, etc., who can put the water to beneficial use may do so under the application and permit system of the State of Idaho. This includes all unappropriated waters of Twin Lakes.

In consideration of the facts, we therefore, cannot accept your letter as a letter of protest against Mr. Goelzer's application No. 95-7254. If you have any questions in this matter, please contact this office.

Very truly yours,

TWIN LAKES *Improvement Association*

March 5, 1973

TWIN LAKES, IDAHO

Idaho Department of Water Administration
401 Front Avenue
Coeur D'Alene Idaho

Gentlemen:

The Twin Lakes Improvement Association has taken a very firm stand against granting of the water right permit to Mr. Robert A. Goelzer, under application #95-7254.

According to the Department of the Interior Washington D.C. as submitted through that office in Boise Idaho date May 19, 1972 on page 11 it states, Twin Lakes will no longer be used as a source of water for irrigation purposes.

I am sure you are well aware of the small amount of water that leaks through the Dam at the time they close the Dam to comply with the decision of the Idaho Supreme Court.

We have helped diligently for the wells and transmission facility for irrigation and domestic use of water for the entire area.

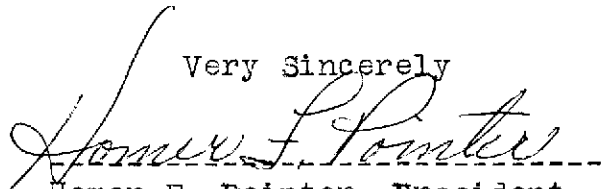

Therefore it is our suggestion any Commercial or private seeking water take advantage of the proposed system and support it. The government has appropriated a large sum for this purpose, which is also a great asset.

The Twin Lakes Association has spent a great deal of time, effort and thousands of dollars to conserve and preserve the waters of Twin Lakes for the benefit of all who use the Lake.

We also feel the Water Administration will give the matter profound consideration. In the event a Hearing or meeting will be held, we would appreciate a notice in order we can represent our people as there is much to be said in the matter.

Thank you very much for your consideration of our protest and remarks.

Very Sincerely

Homer F. Pointer, President
Twin Lakes Improvement Assoc.
