MEASUREMENT CALCULATION:

Hersey-Sparling meter 2,500 gpm at time of exam. Inspected pumping records and found average higher than 5.73 cfs (see sample). Used 2589.5 gpm to calculate AF/A, 2578.5 diversion rate per monthly usage = 67,468,00 12 mo. equals 809,618,000 gpy = 2484.6 AF/A. Because pumping system was under repair, I used May month to figure AF/A.

SYSTEM DESCRIPTION:

309', 12" well static water 1851 with 400 h.p. Bryan-Jackson pump Serial No. 68150053, 1700 rpm.

REMARKS:

Gentlemen:

One of the conditions of approval of your water Permit No. 95-7181 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Pursuant to your letter of March 3, 1972, you mentioned that the \$30.00 fee that you submitted was determined by the information on page thirteen (13), paragraph one (1), of the Water Users Handbook. This section of the book refers to transfers and not to applications for permit.

If the well in question was previously licensed at 2.27 cubic feet per second, and is now capable of producing 8.0 cubic feet per second, you should then file for the additional amount of 5.73 cubic feet per second for municipal purposes.

The fee for 5.01 cubic feet per second to 6.00 cubic feet per second is \$75.00. We are returning your application for permit and your check #92-27, for \$30.00. If you desire to apply for 5.73 cubic feet per second, please make the change on the application and return it with the necessary fee, so that we can begin the processing. Enclosed, please find our fee schedule for your convenience.

If you should have any questions in reference to this matter, please feel free to contact this Department.

Very truly yours,

Fred Eisenbarth
