Dear Dr. Rocca:

One of the conditions of approval of your water Permit No. 95-7119 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Dr. Rocca:

We are herewith returning your application for permit and check in the amount of \$10.00.

Please be advised that the maximum allowable quantity of water that this Department could consider under Idaho law is one inch or .02 cubic feet/second per acre. On the application for permit that you have submitted, you have listed .05 c.f.s. for domestic purposes. It is the Department's feelings that .02 c.f.s. is a sufficient amount for one domestic family unit and the irrigation of up to 1/4 acre of lawn.

As soon as you correct item 4 and resubmit the application, we shall continue to process it.

If we can be of any assistance, please advise.
