THIS IS TO CERTIFY, that Harold Lundy
of Spokane, Washington, has complied with the terms and conditions of Permit
No. 95-7117 issued pursuant to Application for Permit dated June 4, 1970,
and has submitted proof to the Department of Water Resources on August 1, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.44 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

RE: Change of Ownership for Water Right 95-7117

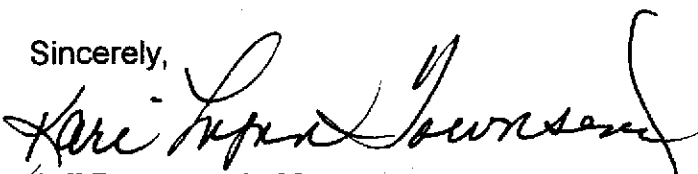

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Dear Mr. Lundy,

A representative of this Department made an examination of the works covered by your Permit No 95-7117 on June 5, 1981, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: .44 cfs Source: groundwater

The maximum quantity diverted shall not exceed 66.0 acre feet
per year.

Point of diversion: SENW Section 4, Twp 50N, Rge 5W

Beneficial use: Domestic use of 55 units within the SWNW, SENW, NESW,
& NWSW Section 4, Twp 50N, Rge 5W

Priority date established: June 16, 1970

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Mr. Lundy:

I have enclosed instructions for installing an access port.

You may prefer, however, to have the meter fixed and placed in a position to measure the rate of flow of the water leaving the well prior to entrance into the pressure system. Either method will be most satisfactory.

I would like to examine the system as soon as possible however, so please contact me when the system is complete.

Attention: Mr. Tom King

Dear Mr. King:

I have read your letter of January 2, 1981, several times but I still do not understand what you mean by "access port". I also do not understand how this circumvents cutting and threading a hole in the pipe. What pipe are you referring to?

Would you be kind enough to send me a sketch or more detail?

Did you know that there is a meter on the main line inside the pump house? Is this what you are referring to?

Thank you for your help.

Dear Mr. Lundy:

One of the conditions of approval of your Permit No. 95-7117 was that you either install and maintain a measuring device, provide a certified measurement of water by a professional engineer or install an access port. I spoke with your representative, Mr. Roland Cannon, concerning this matter. He feels that the access port should be installed by you rather than take the chance of cutting and threading a hole in the pipe.

Please contact me prior to 2/2/81 to inform me of your decision.

Dear Sir:

As per telephone conversation with Bob Fleenor of your department this afternoon we are requesting an extension of time on water permit # 95-7117. Our program has had numerous delays which were caused by reasons beyond our control.

Probably the longest delay was caused by the new freeway acquiring part of our land and also land locking the property to the east of us. This necessitated us to negotiate for roadways to the property east of us and also to negotiate with the State for the freeway land they needed.

We naturally could not complete our plat until these two items were resolved. This setback turned from days into weeks, then to months and finally into years.

We also had to take court action to "quiet title" to part of the land involved which cost us further time but was resolved in our favor.

None of these items diminish our needs for water so we respectfully request that a five year extension be granted so that the people who are using the water now are not in jeopardy and also that we may finalize the plat. All the mechanical aspects of the plat have been completed but more lots will be sold which will change the amount of water consumption.

Your earliest possible attention to this matter will be greatly appreciated.

Yours truly,

Dear MR. Lundy:

One of the conditions of approval of your water Permit No. 95-7117 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Lundy:

We are in receipt of your application for permit to appropriate the public waters of the State of Idaho.

Please note that under Item 4, you should state a specific amount in cubic feet per second for a specific purpose during a specific time of the year. For example, 3.0 cubic feet per second for domestic purposes from January 1 to December 31.

Under Item 5a, the quantity should be listed in cubic feet per second. The 500 gallon per minute figure is equal to 1.0 cubic foot per second.

Under Item 9b of the application, we shall need to know who owns the property at the place of use.

Please make these changes on your application and return it to the Department with the correct filing fee. If you wish to file on 1.0 cubic foot per second the filing fee will be \$25.00.

Please contact us if you have any questions.

Dear Sirs:

Please send me the necessary forms for digging a 12" well and installation of a domestic water system on the SE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Sec. 4, Township 50 N. Range 5WBM.

I will be supplying water to approximately 75 homesites. There is no domestic system in the area that is available to furnish water for the development.

Sincerely,

Harold C. Lundy - pm
