Dear Mr. Bodine,

On April 21, 1977, I examined your wells, as identified by permits No. 95-7104 and 95-7263. As you know, one of the requirements of your permit is to install a measuring device as perscribed by the Department. I was unable to locate such a device on the well described by permit No. 95-7104. I realize that you have not started the irrigation from this well as yet; but, when you do start, a measuring device must be installed. To facilitate the licensing of this well, please contact the Department when you do start to irrigate.

The license for the well described by permit No. 95-7263 should be mailed to you within 60 days.

If you have any questions, please feel free to contact this office.

Very truly yours,

Dear Mr. Bodine:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Coeur d'Alene.
