Dear Mr. McEldowney:

Thank you for your letter of information on my procedure for application for a water permit. I enclose a check for \$10 for the filing fee as requested.

At the present time we do not plan to irrigate the full 4 acres listed on the application because half of it is not yet occupied but would like ~~like~~ to submit the special request to use the amount requested if and when we need it. The irrigation is actually lawn and garden sprinkling on a small part of the area at present.

Will this statement serve as the special request or is a form required for it? If a letter is sufficient may this be regarded as the special request?

Thank you for your prompt attention to my problems in the past and for this permission.

Yours sincerely,

Dear Mrs. Ogg:

Please be advised that before we can process your application for permit we must be in receipt of \$10 which is the filing fee for any amount up to .5 cubic foot per second.

Please be advised also that the legal rate of diversion is one miners' inch per acre per season or .02 cubic foot per second per season per acre. Therefore, since you plan to irrigate 4 acres, the maximum allowable under Idaho Statutes is .08 cubic foot per second. The Department would, however be willing to consider the rate you have requested if you would send us a ps special request for such amount.

Very truly yours,

One of the conditions of the approval of your Permit No. 95-7064
was that proof of application of the water to beneficial use be submitted
to this office on or before October 1, 1970.

Enclosed is an affidavit form which must be used to submit proof of beneficial use. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.

Either the proof affidavit or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sir:

Your last letter advised that the Department of Reclamation was prepared to take action on my application for a Permit No. 95-7064 for pumping water out of Lake Coeur d'Alene for sprinkling purposes.

Since I did not have any idea how much water would be needed I had an engineering firm make the estimate and fill out the form which you sent me earlier. Of course if there is a legal amount set by the state we are glad to accept that for the time being. It a need should arise when we need more our application could no doubt be renewed.

As of now please act on the legal amount of .02 cubic feet per second which is the rate of diversion set for irrigation. We will appreciate your approval of the permit soon. Thank you.

Dear Mrs. Ogg:

The Department of Reclamation is prepared to take final action on your application for permit. Under State Law, the maximum legal rate of diversion is .02 cubic foot per second per irrigated acre. Inasmuch as you have requested twice this amount, we will require justification before we can approve the application. We realize that it is difficult to irrigate small tracts of ground within this quantity, therefore, if you will send us a written statement requesting the additional water and stating your reason as to why it is necessary, we will be glad to assist you in getting your permit.

Very truly yours,

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid,

Signature of claimant

Very truly yours,
