License of Water Right No. 95-7059 Priority April 29, 1969 Amount 0.07 cfs

THIS IS TO CERTIFY, that the State of Idaho, Department of Parks
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 95-7059 issued pursuant to Application for Permit dated April 29, 1969,
and has submitted proof to the Department of Water Administration on July 5, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.07 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Boise, Idaho 83720

Gentlemen:

One of the conditions of approval of your water Permit No. see above (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Please be advised that the matter of the bill of publication and certified bill of publication for each of the above remains open in our records. We require the affidavit of publication and a certified bill of publication to continue processing these applications.

As you may be aware, in order for the public to obtain a water permit, the Idaho Statutes now require publication of a legal notice prior to final action by the Department. Processing time normally requires the applicant to wait a period of six to eight weeks for normal processing requirements. At certain times, this may cause a great burden on the water users of the state and ever additional delay can mean extra hardship for the water users. We are, therefore requesting your continued prompt attention to this matter.

Very truly yours,

Donald W. McEldowney

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant
