Gentlemen:

One of the conditions of approval of your water Permit No. see above (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Please be advised that the matter of the bill of publication and certified bill of publication for each of the above remains open in our records. We require the affidavit of publication and a certified bill of publication to continue processing these applications.

As you may be aware, in order for the public to obtain a water permit, the Idaho Statutes now require publication of a legal notice prior to final action by the Department. Processing time normally requires the applicant to wait a period of six to eight weeks for normal processing requirements. At certain times, this may cause a great burden on the water users of the state and ever additional delay can mean extra hardship for the water users. We are, therefore requesting your continued prompt attention to this matter.
