Dear Mr. Armitage:

One of the conditions of approval of your water Permit No. 95-7050 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. Keith Higginson, Director

Dear Mr. Higginson:

I am answering the notice I received by Certified Mail Re. Water Permit No. 95-7050 which is due on or before July 1. This Permit is to enable me to pump water from Hayden Lake for "beneficial" household use.

Although the pump installation has been made since late last summer and we are currently enjoying limited beneficial use for said purposes, I am compelled by circumstances to request a 90-day extension to Oct. 1 to allow further completion.

I was prevented last fall from installation of a drainage system for several reasons. Due to the late, wet spring this year it has not been possible until now to bring in the bulldozer and backhoe to install a septic tank and drain field as now required by State Dept. Health, located in Coeur d'Alene. This necessitated a change of location because of drain field requirement instead of previous dry well required.

However, permission for installation has been approved and Luke's Transfer Co. of Coeur d'Alene which does this type of installation plan to start this week or next on this work.

Due to a prior commitment I will be in California the last two weeks of June up to July 1. I wish to be in this area when installation of bathroom and kitchen fixtures are made after completion of drainage system.

For these reasons which I consider valid, I therefore request a 90-day extension from the July 1 date.

Re: Permit No. 95-7050

Mr. Lowell R. Armitage
W. 2929 Boone Ave.

Dear Mr. Armitage:

Enclosed you will find a copy of your approved application for permit 95-7050.

You should be aware that rights to the use of water from Hayden Lake are now being litigated in the District Court in Coeur d'Alene. Because of the question as to whether there will be additional water available for development, the water which you might receive under this permit is somewhat questionable and will not be known until the outcome of that case. Since your permit has been approved prior to the submission of our findings to the court, we will include notice, in those findings, that you have been issued such a permit.

The issuance of this permit does not guarantee you a supply of water. The amount of water that might be available will depend upon the findings of this case presently in the District Court.

If you have any questions, please contact me.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer
