The permit listed several forties because the holder wasn't sure of the exact location where the wells would be drilled.

In reviewing the aerial, I "think" you have indicated wells in the:

Please advise if the above descriptions are correct?

Also, the well in Sec. 33, is this the same well as licensed under 95-2174?

Thank you for your help, I do appreciate it!

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
