Dear Mr. & Mrs. Robinson:

Enclosed is a copy of your approved application for permit 95-7021 .

You should be aware that rights to the use of water from Hayden Lake are now being litigated in the District Court in Coeur d'Alene. Because of the question as to whether there will be additional water available for development, the water which you might receive under this permit is somewhat questionable and will not be known until the outcome of that case. Since your permit has been approved prior to the submission of our findings to the court, we will include notice, in those findings, that you have been issued such a permit.

The issuance of this permit does not guarantee you a supply of water. The amount of water that might be available will depend upon the findings of this case presently in the District Court.

If you have any questions, please contact me.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer
