Dear Mr. White:

A representative of this Department has made an examination of the works covered by the above referenced permit and has found the following:

Quantity of water diverted: 0.34 cfs Source: ground water

Amount of water that can be recognized as beneficially used under
Idaho law: 0.34 cfs

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$ (2 points), Sec. 5, Twp. 50 N, Rge.
4W, B.M., Kootenai County

Beneficial use: Domestic purposes in the N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 5, Twp.
50 N, Rge. 4W, B.M.

Priority date established: June 19, 1968

If you do not concur with these findings, please contact us within 10 days; otherwise a water license will be issued as set forth above.

Our field examiner's report also indicates that approximately 14 acres is being irrigated from these two wells. As you are aware, any ground water development after March 25, 1963, must be by means of a valid permit. Please review the matter and if you do not have another permit, please file an application for permit before the next irrigation season. We have enclosed an application form for your consideration.

One of the conditions of approval of your water Permit No. 95-7020 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1973.
