Mr. R. Keith Higginson
 State Reclamation Engineer
 Department of Reclamation

Dear Mr. Higginson:

We have received comments from Jerry Mallet, Regional Fishery Biologist, Coeur d'Alene, regarding applications for water appropriations in Fernan Creek and Smith Creek in Northern Idaho.

Regarding the application of Archie Gookstetter to pump one to two cfs from Fernan Creek from July 1 to October 31, it was recommended that this application be disapproved. At the present time, a problem exists in Fernan Lake with dropping water levels resulting in high surface temperatures that adversely affect fishing throughout the summer. Appropriation of the only source of water to the lake could very possibly aggravate the problem.

Smith Creek has an impassable falls which is located in the approximate area as the withdrawal site; however, no information was given in the application whether the withdrawal was to be above, below, or at the falls. The application also fails to list whether or not a dam will be constructed across the creek. Smith Creek is both a good and important trout producer above the falls. A spawning run of early kokanee uses Smith Creek from its mouth up to the falls; therefore, no dams should be placed below the falls which would block the kokanee run and a pump should be screened so that existing fish populations will be protected. The application lists one cfs to be used for the purpose of mining and milling. Any approval of water appropriation should be conditional in that any return water must not add pollutants to the stream. Unless this specification can be met, the application should be denied.

Sincerely,

IDAHO FISH AND GAME DEPARTMENT

Application No. 95-7016)

The undersigned riparian owners of property on Fernan Lake and/or Fernan Creek, a tributary of Fernan Lake, hereby protest the application of Archie Gookstetter to permit the diversion of 1.0 cubic feet per second of water from Fernan Creek, and state the following objections:

1. Such diversion will reduce the quantity of water available to prior appropriators by diversion and use.
2. Said diversion will reduce the quantity of water available to Fernan Lake and will cause additional pollution of said lake, an increase in the stagnancy of waters of said lake causing odors offensive to the said riparian owners, reduce the level of said lake injurious to the property of said owners and injurious to the health of said owners, their families and guests, and others living appurtenant thereto and to the fish in said lake.
3. The granting of such permit would reduce the recreational value of said lake.
4. The granting of the permit to divert said water would not be in the public interest.

Wherefore these protestants pray:

Dear Mr. Gookstetter:

One of the conditions of approval of your water Permit No. 95-7016 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

MEMORANDUM

Re: Permit application 95-7016

A meeting was held in Kootenai County Court House on January 9, 1969, at Coeur d'Alene, Idaho, to discuss permit application 95-7016. Those in attendance were Archie Gookstetter and his attorney Herbert Nagel, and the protestants attorney James W. Ingalls. After discussing the issues the parties felt that the matter could be settled by a stipulated agreement whereby the applicant agreed to install and maintain a totalizing flow meter as part of his diversion works. The parties indicated they would submit a signed stipulated agreement to that effect.

A handwritten signature in dark ink, appearing to read "C. Stephen Allred", is written over a horizontal line.

The Department of Reclamation has reset the matter of protest for conference and possibly a hearing on January 9, 1969 at 10:30 a.m. in the Kootenai County Court House, Coeur d'Alene, Idaho. This matter was previously set for conference and/or hearing on August 8, 1968 at 3:30 p.m., but was vacated upon request of all parties.

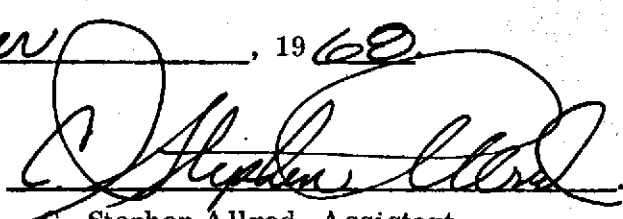

Any hearing will be held in accordance with the rules and regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Reclamation.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department of Reclamation without prejudice to dismiss the protest or the application.
