Remarks We purchased this property in 1959 and this well was already in

at water in the casing. The Dept. of Agriculture checked the water level in the well a few years ago in the months of Feb. and August, and they found that it did not vary one foot from summer to winter.

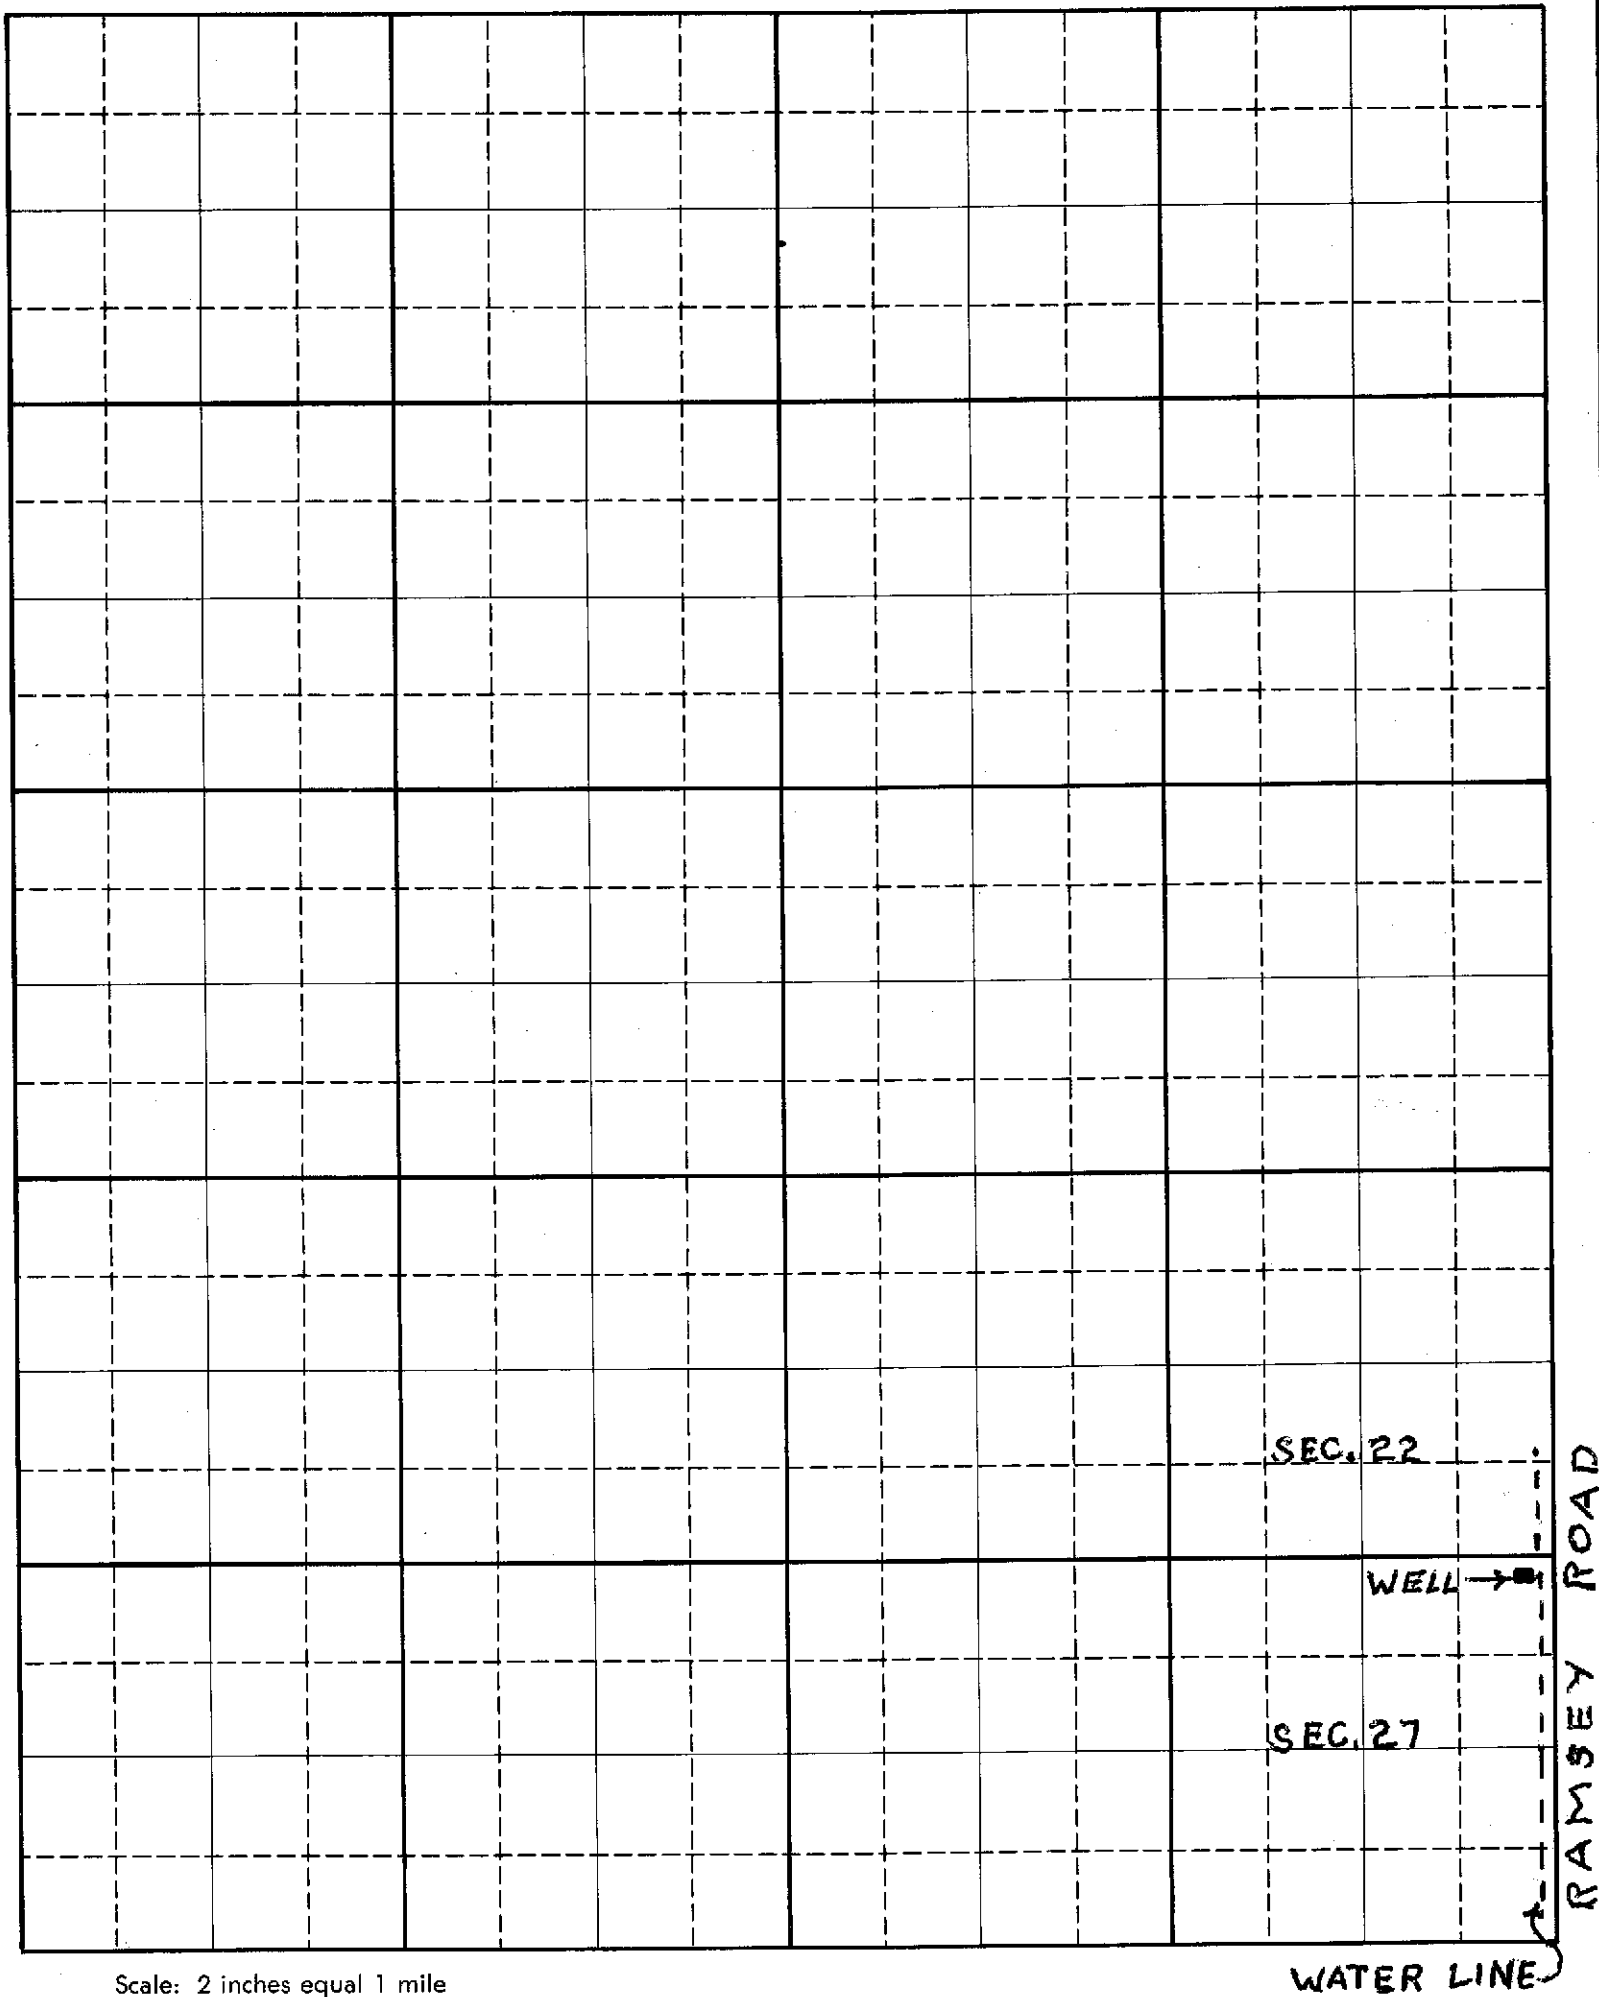

One source of water supply is the underground water shell extending from Lake Pend Oreille through the Panhandle of Idaho and across the State into Washington. Lake P.O. being the largest body of water in the State of Idaho (28 miles long and $\frac{1}{2}$ mile deep) is a natural reservoir which gives us an abundance of water in this area.

The pump house is of masonry construction with a 6" to 8" concrete slab floor. The roof has a scuttle hole 5 feet in diameter directly above the well casing. We are enlarging the existing pump house to a 14' x 18' masonry wall structure.

all is located in the N.E. 1/4 of the N.E. 1/4 of Sec. 27. There are no

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 95-7013.

That under the terms and conditions of said permit, work thereunder was required to be completed by August 1, 1969, 19 .

That he has heretofore performed the following work described under said permit:

Built pump house, installed submersible pump, insulated pump house, installed electric heater in pump house, run water lines to tracts to be serviced.

Costing \$ 10,000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Some of the tracts do not have dwellings on them as yet, consequently some tracts are not using water as yet.

When we get our license to use Idaho water we would like to use it for as many taps as we applied for on the permit. We will advise your office when all tracts are occupied and using water from said well.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to August 1, 1973, 19 .

Dear Sirs,

RE: Licensed Water Rights 95-7006, 95-7012 & 95-7013

In response to your letter of February 17, 1981, regarding the above stated Water Right Licenses, our Department has no provisions for changing ownership on licensed water rights without filing a transfer. However, transfer applications are only used when the water right owner changes the place of use or point of diversion. I assume this is not being done.

In Idaho, a licensed water right is considered real property and ownership to the water right is acquired when the property to which the water right is appurtenant to is purchased.

I have put a copy of your letter in the files for reference, and no further action will be taken.

I hope this will satisfy any questions you have about the water rights. If you have further questions, please feel free to contact me at 334-4123.

Sincerely,

ROBYN HAMPE

Dear Mr. Wilkinson:

A representative of this Department has made an examination of the works covered by your Permit Nos. 95-7006 & 95-7013 and has found the following:

Permit No. 95-7006

Quantity of water diverted: 0.225 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.225 cfs

The maximum quantity diverted shall not exceed 39.6 acre feet per year.

Beneficial use: For domestic purposes within the $E\frac{1}{2}NE\frac{1}{4}$, $W\frac{1}{2}NW\frac{1}{4}$, $W\frac{1}{2}SW\frac{1}{4}$, $SE\frac{1}{4}SW\frac{1}{4}$, $E\frac{1}{2}SE\frac{1}{4}$, $SW\frac{1}{4}SE\frac{1}{4}$, Sec. 27, Twp. 52 N, Rge. 4 W

Point of diversion: $SW\frac{1}{4}SW\frac{1}{4}$, Sec. 27, Twp. 52 N, Rge. 4 W, B.M.

Priority date established: October 19, 1967

The place of use found by our examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed amendment application for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue a Water License as set forth above.

Permit No. 95-7013

Re: Applic. for Permits
#95-7006 and 95-7013

Dear Mr. McEldowney:

After receiving your letter dated Sept. 24, 1968 we immediately went to our attorneys office and placed a long distance call to your office. We talked at length to Mr. Steve Alred from your office, after being advised that you were on vacation.

The information given to your office accusing us of selling water rights in connection with the above permits is completely false. We convey a 3% share of well #2 to each purchaser of land in Section 27, and a 4% share of well #1 to each purchaser of each tract in Section 27. This is the procedure we followed after gathering all the information we could from officials in this area and in your area. We were advised that by giving the well away to the land purchasers we would eliminate having to incorporate a water system and we would also get rid of the liability.

After selling 33 tracts serviced by well #2, and 25 tracts serviced by well #1 we will no longer have any interest in either well.

The property owners in this Section have formed a Water System Control Committee. Mr. Robert Scott who is also one of the property owners is chairman of this committee. Each property owner sends \$2.00 monthly to chairman Scott to pay R.E.A. for electricity used to run the pumps and for maintenance of the system. Water from this system is being used for domestic purposes only.

The water from both wells tested out pure by the Idaho State Health office and needs no chlorination.

We have secured all necessary permits and approval from all official agencies that we were advised were necessary. We hope nothing has been overlooked.

We will be very glad to furnish you with any additional information that is required by your office.

Very truly yours,

Ralph N. Wilkinsen

Ralph N. Wilkinson

Hayden Lake, Idaho

Dear Mr. Wilkinson:

It has been brought to the attention of the Department of Reclamation that you are proposing the sale of, or are selling water rights in connection with the above referenced permits to appropriate the public waters of the State of Idaho. The Department is lacking the detailed information and would like to know what your understanding is in connection with your authority to sell water rights of these permits. Any information concerning your proposed or existing sales and your understandings will be most appreciated.

You should bear in mind that in connection with the two above referenced permits, the possession of these permits is somewhat like a hunting license and the only authority you have is to establish a water right. The water rights in connection with these two permits are not perfected until such time as adequate proof of beneficial use has been submitted to the Department and a water license has been issued.

Your assistance in this matter is appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
