Dear Sirs,

RE: Licensed Water Rights 95-7006, 95-7012 & 95-7013

In response to your letter of February 17, 1981, regarding the above stated Water Right Licenses, our Department has no provisions for changing ownership on licensed water rights without filing a transfer. However, transfer applications are only used when the water right owner changes the place of use or point of diversion. I assume this is not being done.

In Idaho, a licensed water right is considered real property and ownership to the water right is acquired when the property to which the water right is appurtenant to is purchased.

I have put a copy of your letter in the files for reference, and no further action will be taken.

I hope this will satisfy any questions you have about the water rights. If you have further questions, please feel free to contact me at 334-4123.

Sincerely,

ROBYN HAMPE

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 95-7012 and has found the following:

Quantity of water diverted: 0.5 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.5 cfs

The maximum quantity diverted shall not exceed 50 acre feet per year.

Beneficial use: For domestic purposes within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22, Twp. 52 N, Rge. 4 W

Point of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22, Twp. 52 N, Rge. 4 W, B.M.

Priority date established: December 20, 1967

The place of use found by our field examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue a Water License as set forth above.

Gentlemen:

One of the conditions of approval of your water Permit No. 95-7012 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Wilkinsin:

This is to acknowledge your phone call of June 1.

After talking with you, I better understand what you propose to do with your water system. In answering your other phone message I did not know you intended to increase the systems capacity.

Enclose please find an application for permit with instructions. This should be used to file on the amount of increase above what your other permit is approved for.

On July 1 we will open our Northern District Office in the First Federal Building at 401 Front Avenue.

If you have any questions please contact us at either place.

Dear Mr. Wilkinsin:

We are returning your application for permit to appropriate the public waters of the State of Idaho. Before we can continue processing your application, we must have clarification on the following issues.

We believe that it is your intent, under Item 2 of the application, to file for the appropriation of subterranean waters in Kootenai County, Idaho; however, as your application has been filled out, you are filing on an underground lake. We believe, with the knowledge available to the Department of Reclamation, that this is not a proper source. If you would care to resubmit your application for subterranean waters, we will be glad to continue the processing of your application. A filing on an underground lake, however, would make it impossible to process the application as such.

Your prompt attention to this matter is appreciated.
