MEMORANDUM

DATE: April 12, 1979

TO: Bob Fleenor & Glen Saxton

FROM: Bob Haynes

SUBJECT: Dalton Water Association Rights 95-7008 & 95-7360

RECEIVED

APR 13 1979

Department of Water Resources

On November 22, 1967, the Dalton Water Association filed Application for Permit No. 95-7008 for 4.5 cfs for "Domestic" purposes. The application indicated the municipality to be served was Dalton Gardens. On August 27, 1970, Fred Eisenbarth did the exam and measured 2.38 cfs. A license was subsequently issued to the Association for 2.38 cfs and 1722.63 AF for domestic purposes.

On September 23, 1973, the Association filed another application (#95-7360) for 3.0 cfs for Domestic purposes for 1,000 households. The application indicates that the uses are in addition to those listed in #95-7008. Tom King went out to do the exam and measured 2.32 cfs. No additional well has been drilled.

It would seem to me that the appropriate thing to do is to issue an amended license on 95-7008 to the Association calling the use Municipal and having them relinquish #95-7360. In my conversation with Glen on this point, he indicated that this was a possibility if there was some indication on the application that "Municipal" use was the intention of the applicant. There is that intention as the application lists the municipality to be served as Dalton Gardens.

Glen also raised the question of the volume of water allowed by the license. The amount is not really a problem because 1722.63 AF is the amount which could be pumped by running the well at 2.38 cfs, 24 hours a day, 365 days a year.
