There is a great demand for trailer space in this area and we would like a permit for 50 trailers, or individuals, to use this water for household use only, along the South Section line and the West Section line, of Section 27, Township 52 N, R. 4, W. B. M. Kootenai County, pump house.

Our source of water supply is the underground water shelf extending from Pend Orielle Lake through the Panhandle of Idaho and across the State Line into Washington. Lake P.O. being the largest body of water in the State of Idaho (28 miles long and 1/2 mile deep) is a natural reservoir which gives us an abundance of water in this area.

The pump house is of masonry construction with a steel door and a 6" to 8" concrete slab floor. The roof has a scuttle hole 3 feet in diameter directly above the well casing. The well is located at the S.W. 1/4 of the S.W. 1/4 of Section 27. There are no cattle in Section 27.

The well has a 15 horse submersible pump (Meyers) capable of pumping 100 gallons per minute. E.A. Hollman drilled the well and Art Franke Pump Co. installed the pump. Tom's Electric of C.D.A. wired the pump and for this well.

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 95-7006.

That under the terms and conditions of said permit, work thereunder was required to be completed by January 1, 1969, 19 .

That he has heretofore performed the following work described under said permit:

Drilled 8" well 300 ft. deep, installed 15 horse Meyers submersible pump, built pump house, insulated pump house, installed electric heater in pump house, run water lines to tracts to be serviced.

Costing \$ 14,000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: All tracts to be serviced by water from said well are not occupied as yet, consequently some tracts are not using water as yet. When we receive our license we would like it for as many taps as we applied for on the permit. We will advise your office when all tracts are occupied and using water from said well.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to January 1, 1973, 19 .

Dear Sirs,

RE: Licensed Water Rights 95-7006, 95-7012 & 95-7013

In response to your letter of February 17, 1981, regarding the above stated Water Right Licenses, our Department has no provisions for changing ownership on licensed water rights without filing a transfer. However, transfer applications are only used when the water right owner changes the place of use or point of diversion. I assume this is not being done.

In Idaho, a licensed water right is considered real property and ownership to the water right is acquired when the property to which the water right is appurtenant to is purchased.

I have put a copy of your letter in the files for reference, and no further action will be taken.

I hope this will satisfy any questions you have about the water rights. If you have further questions, please feel free to contact me at 334-4123.

Sincerely,

Dear Mr. Wilkinson:

A representative of this Department has made an examination of the works covered by your Permit Nos. 95-7006 & 95-7013 and has found the following:

Permit No. 95-7006

Quantity of water diverted: 0.225 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.225 cfs

The maximum quantity diverted shall not exceed 39.6 acre feet per year.

Beneficial use: For domestic purposes within the E $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, Twp. 52 N, Rge. 4 W

Point of diversion: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 27, Twp. 52 N, Rge. 4 W, B.M.

Priority date established: October 19, 1967

The place of use found by our examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed amendment application for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue a Water License as set forth above.

Permit No. 95-7013

Quantity of water diverted: 0.06 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.06 cfs

Dear Mr. Wilkinson:

We acknowledge receipt of your affidavits submitted as proof of beneficial use for the above referenced permits.

Before licenses can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the systems.

If you have any questions regarding the field exam, please contact our Northern District Office at 401 Front Avenue, Room 209, Coeur d'Alene, Idaho.

Dear Mr. Wilkinson:

One of the conditions of approval of your water Permit No. 95-7006 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Applic. for Permits
#95-7006 and 95-7013

Dear Mr. McEldowney:

After receiving your letter dated Sept. 24, 1968 we immediately went to our attorneys office and placed a long distance call to your office. we talked at length to Mr. Steve Alred from your office, after being advised that you were on vacation.

The information given to your office accusing us of selling water rights in connection with the above permits is completely false. We convey a 3% share of well #2 to each purchaser of land in Section 27, and a 4% share of well #1 to each purchaser of each tract in Section 27. This is the procedure we followed after gathering all the information we could from officials in this area and in your area. We were advised that by giving the well away to the land purchasers we would eliminate having to incorporate a water system and we would also get rid of the liability.

After selling 33 tracts serviced by well #2, and 25 tracts serviced by well #1 we will no longer have any interest in either well.

The property owners in this Section have formed a Water System Control Committee. Mr. Robert Scott who is also one of the property owners is chairman of this committee. Each property owner sends \$2.00 monthly to chairman Scott to pay R.E.A. for electricity used to run the pumps and for maintenance of the system. Water from this system is being used for domestic purposes only.

The water from both wells tested out pure by the Idaho State Health office and needs no chlorination.

We have secured all necessary permits and approval from all official agencies that we were advised were necessary. We hope nothing has been overlooked.

We will be very glad to furnish you with any additional information that is required by your office.

Very truly yours,

Ralph N. Wilkinson

Ralph N. Wilkinson
Box 142
Hayden Lake, Idaho

Dear Mr. Wilkinson:

It has been brought to the attention of the Department of Reclamation that you are proposing the sale of, or are selling water rights in connection with the above referenced permits to appropriate the public waters of the State of Idaho. The Department is lacking the detailed information and would like to know what your understanding is in connection with your authority to sell water rights of these permits. Any information concerning your proposed or existing sales and your understandings will be most appreciated.

You should bear in mind that in connection with the two above referenced permits, the possession of these permits is somewhat like a hunting license and the only authority you have is to establish a water right. The water rights in connection with these two permits are not perfected until such time as adequate proof of beneficial use has been submitted to the Department and a water license has been issued.

Your assistance in this matter is appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Dear Mr. Wilkinson:

We are in receipt of your application for permit to appropriate the public waters of the State of Idaho; however, before we can process your application, we must be in receipt of a check for the correct filing fee.

The correct filing fee for water less than 0.5 c.f.s. is \$10.00. Therefore, we are returning your personal check No. 1149 in the amount of \$20.00. Please submit a check for \$10.00 promptly so that we may continue processing your application.
