Dear Mr. Williams:

One of the conditions of approval of your water Permit No. 95-7000 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Sankey:

Pursuant to your letter request of November 22, 1971, we are enclosing an assignment form.

It is necessary that the permit be assigned to you before you can manipulate it in any way. Presently, this permit has not been completed for licensing. Proof of beneficial use is due in September of 1972. If, in July or August of 1972, you feel that the project will not be completed before the proof due date, you may submit an extension of time form. At that time, we will make a decision based upon the diligence that the permit holder has shown towards completion of the project.

If you require any additional information or advice in this matter, please feel free to contact this Department.

Very truly yours,

James Booker
Appropriation Examiner
