Dear Sirs;

In your files are two claims to a water right, in the above name, and concerning our ranch in sections 17 & 18, TWP 46 N, R3 WBM, Benewah County.

One or both of these claims are inaccurate in certain details. Our home and copies of the claims burned in 1982. I would be very thankful if you could make me a photocopy of each of them so that I can arrange to file an amended claim and/or additional claims.

Thank you in advance.

Sincerely,

H. W. Morris

Section 42-225a, Idaho Code

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that H. William Morris

(name of claimant)

of Box 160, Plummer, Idaho, claims a right to the diversion and beneficial use of
(mailing address)
ground water or surface water tributary to _____.

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Hand dug well, 3 ft. deep

- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount	<u>0.02</u>	Use	<u>Stockwater</u>	Period of Use:	From	<u>Jan. 1</u>	To	<u>Dec. 31</u>
Amount	<u>0.02</u>	Use	<u>Domestic</u>	Period of Use:	From	<u>Jan. 1</u>	To	<u>Dec. 31</u>
Amount	<u>0.02</u>	Use	<u>Irrigation</u>	Period of Use:	From	<u>June 1</u>	To	<u>Nov. 1</u>
	(cfs, gpm or gal/hr)		(dom., irri, stock, etc.)			(both dates inclusive)		

- (3) Total quantity of water claimed: 0.02 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

- (4) Priority claimed: (the date water was first applied to beneficial use) 1918

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)
NE ¼ NE ¼, Sec. 18 Twp. 46N Rge. 3W B. M. County of Benewah
 Additional points of diversion:

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Hand dug well by Thomas Campbell in 1918 or before. Well is 3' deep, 36" diameter. Water is pumped to house by electric motor with 3/4" steel pipe. The well also flows freely (cont'd. in remarks)... HWM

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 12

- B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: _____
Stockwater for 100 cows, 100 calves, 3 bulls, and 3 horses.

Domestic: at present, one household.

- (7) If you are claiming water as a member of an organization, list name of organization:

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	acre feet
	Total claimed:		1.2 c.f.s. or	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.

9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to it for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Claim Nos. 95-4083 and ~~95-4084~~ - William Morris

Dear Mr. Dellwo:

This acknowledges the receipt of your letter dated June 1, 1973, relative to Application Nos. 92-7013 and 93-7004 and Claim Nos. 95-4083 and 95-4084. I assume that you wish the objection of the Coeur d'Alene Tribe to be made a matter of record and that you desire a hearing to be held concerning the two applications for permit. You should understand that there is no hearing in connection with claims to water rights, since they are filed for record purposes only and no action is required by this office. In connection with your letter, there are several items with which this office cannot agree.

- (1) You indicate that it is a "fact that the water rights of the tribe to the waters involved are superior to and prior in time to any jurisdiction of the State of Idaho." We do not know and you do not know it to be a fact that the tribe does have any water right to the waters involved. We therefore cannot act upon your contention that the tribe has any claim at all on the waters in question.
- (2) You suggest that we direct the attention of the applicants to the extent and nature of the Indian water rights. I would be most happy to do so if anyone could tell me what the extent and nature of such rights were. Until such time as the rights have been identified and quantified by the court, we are not in a position to direct anyone's attention to them.
- (3) You suggest that we confer with the Attorney General's Office and obtain his advice, which you believe will show that whatever right the tribe has will in no way be affected by administrative action of this office. I am happy to advise you that I have conferred with the Attorney General's Office and am advised that the actions of this office cannot be controlled or affected by any claim of water right by the Indian tribe, no matter how ridiculous or inflated that claim may be.

Mr. Robert D. Dellwo

Page 2

June 18, 1973

What I'm trying to say, Mr. Dellwo, is that just because the Indians claim a particular right does not establish the fact that such a right exists. I would hasten to add that the State of Idaho and this office recognizes that the Indians are entitled to water use with a priority as of the date of the reservation. However, it is our understanding that that right is only for the purpose for which the reservation was created. Since a major portion of the original reservation lands have now passed out of tribal trust status, it is our contention that no reservation water right can now exist, except on the remaining portion of the land.

Please advise us if you wish a formal hearing to be held concerning the Thompson and Manes applications for permit.

Dear Mr. Morris:

The Department of Water Administration has completed the processing of your claims to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claims will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of a claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim files, you may have that information or evidence added at any time. Please refer to your claim numbers when corresponding with this office.

We are enclosing, for your records, copies of your claims. If you have any questions, or if we may be of further assistance, feel free to contact us.

Dear Mr. Morris:

We are returning your Claim to a Water Right form. Whereas you are claiming two separate sources of water supply with two priorities, it will be necessary to file a claim for each source.

We have taken the liberty of transferring the information on to our new Claim forms for your convenience. Please review all items, and if you believe that the information adequately describes your water right, have them notarized once again and return them to our office located in Coeur d'Alene.

There is a required filing fee of \$10 per claim to cover the advertisement. Please submit the fees with the claims and we will begin their processing.

If you have any questions, or if we may be of any further assistance, feel free to contact this office.

Very truly yours,

Fred Eisenbarth
Northern District Manager
