Mr. Robert E. Woodbury,
Rt. #1,
St. Maries, Idaho.

Dear Mr. Woodbury:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 29013. The proofs are to be made at 11 o'clock A.M., on the 21st day of September, 1961, ~~1959~~ before Ray Bowen, 909 Main St., St. Maries, Idaho, Notary Public.

As of this date we have mailed the Notice to the Gazette Record with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Mr. Woodbury advises
that I am to return
without the publication

We received the assignment of the above noted permit from Mr. Woodbury to you with check for \$10.50 total fees.

The Certificate of Completion of Works and license and Certificate of Water Right will be issued to you as soon as possible with our present work load.

The certificates give you a perpetual right to the use of the water. This does not include any right-of-way. We do not know if Mr. Woodbury had any agreement about the right-of-way. A small enclosure would be sufficient at the spring if all excess water was piped to a water tank below the spring.

Robert D. Woodbury
Rt 1
St. Maries, Idaho

Dear Mr. Woodbury:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 29013 shows the pump and pipe line are capable of conveying 1 minor's inch, or 0.02 c.f.s. of water for domestic use.

Upon receipt of the statutory fees totaling \$10.00, Completion of Works fee, \$5.00, and License and Certificate of Water Right fee, \$5.00, we will issue the Certificate of Completion of Works and License and Certificate of Water Right, confirming the right, with priority of September 15, 1960, to the use of 0.02 second feet of surface water with the point of diversion in the SE 1/4, Sec. 14, from a spring for domestic use in the NW 1/4, Sec. 14, T. 46 N., R. 3 W., B.M.

Enclosed is an assignment form which you may execute before a Notary Public. There is a fee of \$0.50 for recording an assignment which should be included with the above mentioned statutory fees. The certificates of water right can then be issued in the name of Myron Ragan.

St. Maries, Idaho.

Dear Mr. Woodbury:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the St. Maries Gazette ~~Record~~, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Re: Permit No. 29013

Date: July 1, 1961

Robert E. Woodbury

St. Maries, Idaho

Dear Mr. Woodbury:

Under the terms of your Permit No. 29013 you are required to make proofs of completion of works and application of water to beneficial use on or before September 21, 1961.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

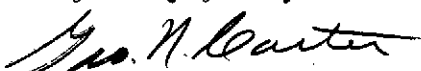

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point of points of diversion and the location of use or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A.

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.
