and which is not, then
I could submit an
application for Amendment
as we have discovered
that this heavy soil
takes much less water
than the average which
would allow us to ir-
rigate much more land,
also much of the lower
land is sub irrigated
because of the use of
water on the high ground
so it appears that an
Amendment later is the
only alternative.

Dear Mr. Andrews:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. In reviewing your affidavit, there appears to be a discrepancy in the place of use. Your permit was issued for the irrigation of 30 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 16; your proof affidavit indicates you are irrigating lands as follows:

NE $\frac{1}{4}$ NE $\frac{1}{4}$ - 20 acres NW $\frac{1}{4}$ NE $\frac{1}{4}$ - 5 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$ - 5 acres

If your proof affidavit is indeed correct, you will be required to amend the permit. We are enclosing an application for amendment form for your use in this matter. There is a \$10.00 filing fee in connection with amendment applications.

Please advise us regarding this matter by return mail. Your assistance is most appreciated.

Very truly yours,

Dear Mr. Andrews:

Pursuant to your letter of July 14, 1971, we wish to advise you that your permit could be amended to include fish propagation. However, the priority date would have to be reduced to the date of the amendment.

Keeping this in mind, you may wish to file a new application for permit instead of amending the original. We are enclosing an amendment form and a new application for permit form for your consideration in this matter.

If we may be of any further assistance in this matter, please do not hesitate to contact this Department.

Dear Sir:

Is it possible for me to get fish propagation added to my irrigation permit, also a storage permit for a small stock and fish pond. This water seems to be extremely cold and by having a pond it would have a chance to warm somewhat before being used for irrigation.

Sincerely,

Re: Permit No. G-33406 (New No. 95-2197)

Mr. Frank F. Andrews
Route 3, Box 278
Coeur d'Alene, Idaho 83814

Dear Mr. Andrews:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
