Dear Sirs:

Department of Water Administration

I am writing in request of information concerning a water permit. I put an application in for 12 cubic feet per second which you approved and gave me five years to do it in. I have developed part of it already and hope to develop more in the next few years.

My question is, is it possible to prove completion or get a water license on the portion I have already done at this time, so I could establish a priority date on what I have done.

Yours truly

Dear Mr. Armstrong:

We received your application for permit to appropriate water from a well in NE1/4SW1/4, Sec. 33, T. 51 N., R. 4 W.

The application appears to be in order except on the map you wrote E1/2, Sec. 33, whereas the land is shown in the W1/2. I assume the W1/2, Sec. 33 is correct as that agrees with the information in the application.
