Dear Mr. Howell:

In reference to your letter of June 22, 1970, please find enclosed our application for permit, and our transfer form.

If the well in question is capable of producing more water than what you are presently using, and you are going to put in new lands, then fill out the application for permit form. If you are going to delete part of the grounds which you now have under production, to put in new grounds elsewhere, using the same point of diversion, use the enclosed transfer form.

If we can be of any assistance in filling out either of these forms, please feel free to contact us.

RE: Permit No. G-32332

Dear Mr. Bosch,

I am writing regarding irrigation well Permit No. G-32332 for which on August 31st I mailed check for \$17-as you requested-to raise c.f.s to 2.87 for final Certificate of Water Right and Certificate of Completion of Works.

I did not indicate that there was any need for haste in the matter. However, financing of the irrigation project does hinge upon receipt of this permit. Since it has not been received to date, I felt it wise to so indicate to you and perhaps you would see this was processed as quickly as possible.

I realize this may have gotten waylaid due to the long holiday weekend and if it has been or is being cared for, please forgive my impatience.

Thank you,

Dear Mr. Howell:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **G-32332** shows the well ~~is~~ ~~capable~~ of conveying **143.5** miner's inches, or **2.87** c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ **17.00**, we will issue the Certificate of Completion of Works for **2.87** c.f.s. and the License and Certificate of Water Right for **2.87** c.f.s. confirming the right, with priority of **April 21, 1965**, to the use of subterranean water with the point of diversion in the Center **SE 1/4**, Sec. 11 for irrigation of **204** acres in the **E 1/2 SW 1/4**, **SE 1/4**, Sec. 11, T. 51 N., R. 5 W., B.M.

Dear Mr. Howell:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Coeur d'Alene Press~~ all submitted in proof of completion of works and beneficial use on Permit No. **G-32332**.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

In accordance with your instructions, we have completed and are returning the Affidavit of Publication and the Deposition of Holder and Deposition of two witnesses, in reference to the above permit.

It is our understanding that this completes the necessary requirements prior to your issuance of a permanent water permit on subject property.

The irrigation system on this property was financed subject to the issuance of a permanent water permit. Would you please advise when an inspection could be accomplished and about when you expect the final permit to be issued. This will enable us to proceed with the closing of this loan and the disbursement of the funds.
