Ronald L. Russell of Meca Agency
South 427 Bernard
Spokane, Washington

Dear Mr. Russell:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the COEUR D'ALENE PRESS, all submitted in proof of completion of works and beneficial use on Permit No. G-32087, G-32088 & G-32090.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Carson:

Receipt is hereby acknowledged for the proofs of completion of works and beneficial use for the above referred permit.

The Idaho Statutes require a field examination be made prior to the issuance of a water license. Therefore, our field examiner will make arrangements to examine these works when in that part of the state and this should be during the Summer of 1966.

Upon completion of the field examination, which will determine the amount of water actually put to beneficial use, a license will be issued. The fee for the licenses are determined by the amount of water and the number of 40 acre subdivisions covered by each permit and are decided by the field examination.

The licenses for these permits should be available during the irrigation season of 1966.

If we can be of any further assistance please feel free to contact us.
