Re: Permit No. G-32079

Thomas A. Brickert
Coeur d'Alene,
Idaho

Dear Mr. Brickert:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Re: Permit No. G-32079

Dear Mr. Brickert:

One of the conditions of the approval of your permit
G-32079 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
Sept. 25, 19 69.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Dear Mr. Brickert:

Your application for permit to divert subterranean water with \$5.00 check attached has been received.

Returned herewith is the \$5.00 check. The amount of water claimed has been reduced to 3.2 c.f.s. or 1440 G. P. M. which is the maximum allowable for 160 acres to be irrigated.

The statutory fee for application claiming 3.2 c.f.s. is \$5.75. Kindly return the proper filing fee and the application will be processed.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

RE: Application for Permit
Thomas A. Brickert

Mr. Thomas A. Brickert
Route 1
Coeur d' Alene, Idaho

Dear Mr. Brickert:

We received your application for Permit for a new well to be completed by May 1, 1965.

There are several discrepancies noted in the application. You have the point of diversion listed as if you plan on having two wells; under REMARKS you state that there is to be only one. Also, you ask for 6.0 cubic feet per second of water; however, you neglected to fill out the back of Page 1, stating the description of land to be irrigated. Your map shows a total of 240 acres and only 4.80 c.f.s. could be allowed for this area. The map does not agree with the locations listed on the permit.

We are returning your application and check for correction. It would be advisable for you to contact someone who is familiar with maps and request help in completing the forms.

We require two copies of the map completed in ink showing section, township, and range for the point of diversion; also, the land to be irrigated should be shown on this map.

Be sure to fill out all sections of the application and answer all pertinent questions. See sections marked in red on the old application.

We are enclosing new application forms and Form No. 0 for resubmission. The dark lines of the Form No. 0. stand for each section and the small ones for forty acre tracts.

Mr. Thomas A. Brickert

Upon receipt of the corrected application and fee based on one cubic inch of water per acre of land to be irrigated, we will be glad to process your application.
