Remarks: Pond is completed. It is to be used for fish, and only for maintaining ideal temperature. The same amount of water leaves the pond - that goes through the entrance. All water that runs into the ponds returns to Marie Creek before it leaves our property.

Yes, our creek intersects small streams from mountain springs.

Several other ponds will be placed on tributary creeks that are running through our property, but all water returns to Marie Creek before it leaves our property. It is more or less in storage to prevent further land corrosion.

BE IT KNOWN That the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Permit No. 31313

Loyal L. Hall  
Route 3, Box 515  
Coeur d'Alene, Idaho

Dear Mr. Hall:

We acknowledge receipt of the depositions and affidavit of publication in the Coeur d'Alene Press submitted as proof of completion of works and beneficial use on Permit 31313.

Before a water license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Dear Mr. Hall:

We have received the depositions and affidavit of publication submitted in connection with proof under the above referenced permit; however, before we can accept them, we will need an affidavit from the notary public, Cecil Kelly, Jr.

This affidavit, notarized by a second notary, must state the reason why the depositions were taken on September 17, 1968, instead of on September 13, 1968, the advertised date. The affidavit must also state whether or not Mr. Kelly's office was open on September 13, 1968, and whether or not any protests have been received or offered concerning Permit No. 31313.

Please submit the notarized affidavit promptly so as to retain this permit in good standing.

Very truly yours,

Cecil Kelly, jr., states reason depositions regarding permit No. 31313 were not taken, is that Mr.. Loyal L. Hall did not appear on September 13, 1968 to sign depositions, was that the Hall's car was inoperable on that date, and they live 16 miles out of town, and there was no transportation to get to town.

Mr. Kellys office was open on September 13, 1968.

There have been no protests concerning Permit No. 31313.

Dear Mr. Hall:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than August 2, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces on both forms, sign the form authorizing us to publish the notice at your expense, and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Dear Mr. Hall:

Enclosed are Forms 36A and 11, with instructions.

Your letter of June 17th, inquired about conditions of the permit issued to you. Look at the back page of the permit. That shows you must make proof of completion of works and beneficial use of the water on or prior to August 2, 1968.

You may complete the enclosed forms according to instructions, if the works are complete and you are using the water.

Remit the forms to this office and the Form 36A will be checked and if proper, it will be sent to your county paper for publication. At the same time, we will send you the deposition forms.

Our field examiner will inspect the works after depositions are approved in this office and you will be notified concerning fees. The certificates issued on payment of the fees are permanent and need not be renewed except in case you need more water.

Gentlemen:

In answer to your letter of July 17, 1963, I am enclosing a check in the amount of \$5.25 to cover the cost of the filing fee for our application for a water right on the water going through our property.

Yes, the entire Marie Creek intersects with small mountain springs and runoff water. Also in the late summer the creek water dries up completely above our property and comes back to the surface as it enters our property. Thus some of our late summer water seems to be springs or underground water.

No, there are no other diversions except this one stream, which supplies water for our home and also for the private fish pond about which we have explained within the enclosed material.

Sincerely,

Loyal L. Hall

Re: Application for Permit

Loyal L. Hall  
Route #3, Box 515  
Coeur d'Alene, Idaho

Dear Mr. Hall:

Returned herewith is your application for permit which we received without the \$5.25 filing fee. See fees shown on back page of application.

You claim water from Marie Creek and springs, however you do not show the springs on your map. Do you mean that your ditch intersects small streams from springs? The point of diversion from Marie Creek has been changed in pencil to agree with the maps. No. 6 has been completed in pencil. You should answer 7, 8, 9, 10 and 11.

The time under 12 has been shown as 5 years. You may make the proof of completion of works and beneficial use of the water at any prior time.

Are there any existing diversions of water from Marie Creek between your diversion and place of return of water? Show on the map, any such diversions.

Return the completed application with the filing fee for processing.

Very truly yours,

RALPH W. THOMAS, Deputy  
State Reclamation Engineer
