NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Clarence R. Block, E. 10716 24th Avenue, Spokane, Washington 99206 has received an approved Permit No. 31130/95-2148 issued by the Idaho Department of Water Administration authorizing the diversion of 0.24 cubic feet per second of water from the Spokane River. The priority to be established under this permit is May 2, 1963, and the permit was approved May 17, 1963.

Water is to be diverted by pump and pipe from a point within Lot 6, Sec. 11, T. 50N, R. 5W, B.M., Kootenai County, to be used for domestic, irrigation and stock water purposes in the (SE $\frac{1}{4}$ NW $\frac{1}{4}$) Lot 6, Sec. 11, T. 50N, R. 5W, B.M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before May 17, 1974. Any protests against the issuance of the license for the above referenced permit should be filed with the Idaho Department of Water Administration within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Dear Mrs. Block:

Thank you for your letter of May 2, 1979, in which you submitted proof of beneficial use and clearly explained the situation involving Permit No. 35-2148.

All requirements on your part for licensing the portion of the water right on lots 17 and 18 have now been met. We will forward the documentation to our northern regional office in Coeur d'Alene for inspection of your system.

Enclosed is a assignment form on which you can assign a portion of the permit to the Fishers. If you have any ~~further~~ questions on this matter, please feel free to contact me.

Attention: Mr. David Tuthill Re: Clarence and Mary Jane Block
Permit No. 31130/95-2148

Dear Mr. Tuthill:

Enclosed is the letter you requested me to get from the Post Falls Highway District advising that road construction is still in progress behind our frontage lots #17 and #18. Also enclosed is completed Form 217a, Proof of Application to Beneficial Use sent to us February 28, 1979.

Nothing in the Highway District letter explains the problems entailed in completing our water system. As I told you on the telephone today, the road construction disturbed the land above Lots 17 and 18, causing a tremendous washout at the point of diversion on Lot 17 along with the whole beach area. The district had to bring in many loads of dirt and gravel and repair our roadway on Lot 17 down to the beach area. But on our own we have had to repair and replace the pump, pumphouse and motor and pipes. So we have been getting this back to use, in the meantime using a hose hooked up to the pipes from Lot 18 for water use on Lot 17. The Fishers on Lot 18 have steadily used the water also since 1968. We are only temporarily using water from their hookup for Lot 17 as the new replacement pump and pumphouse are in and shortly after the water is up we will be able to restore usage of water from the point of diversion on Lot 17.

Further, because of the road construction, when the Road District blasted and tore up the pipe and watering troughs behind Lot 17 and 18, the first time several years ago, leading to the back 10 acres of our water project, we have not been able to proceed. The reason is that they are still tearing up that portion and would be removing anything we put in. So we have not been able to restore that portion of the originally planned water system. As you can see by their letter, construction is still in process. Over these past years, with no reimbursement from them for damage done, we cannot absorb the expense of replacement of this portion at this time for that 10 acres. So we now desire only to retain water rights for Lots 17 and 18.

On May 20, 1968, we received a Certificate of Completion of Works on this Permit No. 31130, Application #39221, with a priority date of May 2, 1963 for Lots 17 and 18 of Govt. Lot 6 of Section 11, Township 50 North, Range 5 W, Boise Meridian. So this portion of the work has been completed, but on Lot 17 was interrupted by the washout and is now practically restored after the beach was repaired as mentioned above.

Will you please let us know if anything further is needed. Also, could you send along that form for assignment of water rights so that the Fishers may be included on this claim. Thank you for your time and assistance.

Very truly yours,
Mrs. Clarence Block

Dear Mr. Block:

One of the conditions of approval of your water Permit No. 31130/95-2148 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 17, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

for Permit No. 31130/95-2148 for Clarence R. Block, E. 10716 - 24th Ave.
Spokane, Washington 99206

Dear Mr. Higginson:

Due to the reasons stated below we will be unable to submit proof of application of water to beneficial use by May 17, 1974. Under Section 42-204, Idaho Code, amended, we request a considerable extension of time to complete the project, especially for Lot 17 and the 10 acre portion across the road on Government Lot 6.

In 1967 and 1968, after the Post Falls Road District of Kootenai County notified us that several of our acres behind Lots 17 and 18 and Government Lot 6 were to be condemned to put through a new road to Post Falls on the South side of the Spokane River. This was after they had closed Green Ferry Bay Bridge. Our lawyer advised us to sell the property they required to the Road District rather than to go through costly condemnation litigation, so we sold the acreage they desired.

We sold our house on Lot 18 and the Fishers should now have the rights to that portion of project, as of 1968.

During construction the road district tore up pipes, culverts, watering trough and also damaged the barn. The removal of the huge trees and roots released a deluge of springs that washed out all the other work we had done on Lot 17 right into the river. So our point of departure and pipes from there for Lot 17 and for up across the road to approximately (ten acres for irrigation purposes) will all have to be redone. The Road District did bring in dirt and gravel and try to put the lot back into shape after a request from our lawyer, but we will need time and money to redo what we had already done and were not reimbursed for damage. The point of departure on Lot 18 is complete and being used by Fishers. Could you give them some kind of proof of water rights for their portion?

Dear Mr. Block:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof of beneficial use of water.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department.

If you will complete the enclosed form, we will cause the notice to be published. Should you require additional information or have any questions regarding this matter, please contact us.

Dear Mrs. Block:

Thank you for your letter of March 5, 1968 on the above referenced permit. Please be advised that the department does not require amendments to delete land from a permit. This will be determined during the field examination, prior to licensing your permit.

As to your requested change in the point of diversion from Government Lot 6 to lot 18, for the use only in lot 18 for irrigation, this will not be required as the department records points of diversion and places of use as to public land survey subdivisions or U.S. Government Lots only. Inasmuch as lot 18 is part of U.S. Government Lot 6, an amendment will not be required.

As requested, we are enclosing a copy of permit No. 31130. Please be advised that there is a \$1.00 fee. Please remit promptly.

Very truly yours,

Donald W. McEldowney

Dear Sir:

With regard to Permit No. 31130, we would like to amend our original application to read point of diversion Lot 18 and that water is to be used for irrigation of Lot 18 only, for months from May through September. We originally planned to use the water for domestic use and irrigation of Lots 17 and 18 and also 10 acres behind our home. Now do we go about making this change?

In a separate letter we are filing for water rights for our well.

We do not have a copy of the original application on Permit No. 31130, so could you please furnish us a copy and advise us how to make the amendments to our original application.

Thank you.

Very truly yours,

Mrs. Clarence R. Block

Dear Mr. Block:

Under the terms of your Permit No. 31130 you are required to complete your diversion works on or before May 17, 1968. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer

Re: Application for Permit

Dear Mr. Carter:

Thank you so much for your help with our application for water rights. We have re-drawn the maps according to your enclosed pencil sketch. We had traced our first map from the one submitted by the Burgess's who have Lot 19 and, of course, can see by your sketch that theirs was not correct.

We have river frontage lots 17 and 18 and also are buying all of the remaining portion of Government Lot 6, of which river frontage lots of the Greens Ferry Bay Tracts were formerly a part of. We desire the 2 points of diversion to be in the middle of each Lot 17 and 18.

We have made the changes as you have pencilled on the application form and hope that we have submitted all correctly this time. We are enclosing a new check in the amount of \$5.00 for filing the application.

Again thanks for your assistance as this is all new to us and very confusing.

Very truly yours,

Clarence Block

RE: Application for Permit

Clarence R. Block
Rt 1, Box 118
Coeur d'Alene, Idaho

Dear Mr. Block:

Returned herewith is your application for permit with attached check for \$5.00 filing fees. Also enclosed are two blank sketch map forms.

The quantity of water claimed must be a definite amount and 0.24 cubic feet per second has been shown. The Spokane River is a tributary of the Columbia River.

You describe two points of diversion in the NE $\frac{1}{4}$ and NW $\frac{1}{4}$ of Sec. 11, T. 50 N., R. 5 W. Possibly you mean two points in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11 which is Lot 5 of the Government Survey. Under the land list you show 7 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and 5 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11. Your map and remarks mention Lot 6 which is the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11. Your map showing Lot 6 with two adjacent sides intersecting the river is in error. Your map also indicates that the points of diversion are in Lot 6 (SE $\frac{1}{4}$ NW $\frac{1}{4}$) Sec. 11.

Kindly show your land and points of diversion. Show all of Sec. 11 south of the Spokane River. Use the blank sketch maps enclosed and return both maps.
