RE: Permit G-31032

Gentlemen:

Received your letter regarding Completion of Works & Application of Water to Beneficial Use on Permit G-31032.

On December 30, 1965 I applied for the forms and completed all of the necessary papers. It was advertized in the Coeur d'Alene Press and depositions signed March 25, 1966. Copy of your receipt enclosed. Your man, I don't remember his name or the date, was here and inspected the well one Saturday of that year.

In going through the file I don't find the water right so it must be fouled up somewhere. We did two depositions, etc. at the same time, perhaps this permit G-31032 has been misfiled. The other permit done at the same time was G-31781. I do have the Certificate of Completion of Works and Water Right on Permit G-31781.

Please let me know what you find.

Dear Mr. Jacklin:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than March 15, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Dear Mr. Jacklin:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Coeur d'Alene Press, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Gentlemen:

We will have to have the above permit re-advertised on the Notice of Publication you inquired about, due to the error.

The first issue you ran on correction will be all right, but on the three following issues the time for making proofs will have to be changed to March 25, 1966, in order to get the correct number of publications before depositions are made.

As we requested a copy or tear sheet of the notice one week prior to the first publication, which was not mailed into this office, we feel the expense of the last four issues should be paid by you.

The first four publications, of course, would be charged to Mr. Jacklin.

The notary and applicant are being notified of the change by copy of this letter.

Dear Mr. Jacklin:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-31032 & G-31781. The proofs are to be made at 2:00 o'clock P.M., on the 9th day of March, 1966, before G. M. Hollis, Post Falls, Idaho Notary Public.

As of this date, we have mailed the Notice to the Coeur d'Alene Press Coeur d'Alene, Ida., with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

We received your letter of February 25th, in regard to water at your mixing plant.

Domestic use is defined in the statutes as water for household use and livestock and water used for all other purposes not in excess of 13,000 gallons per day.

There is a bill before the Legislature to change the Ground Water Statutes. I do not know if it will change this portion of the present statutes.

Note that the amount is 13,000 gallons per day and not 13,000 gallons per minute, you showed in your letter.

An application form is enclosed in case you do wish to apply for a permit.

Gentlemen:

We are building a bulk Fertilizer Mixing Plant in Kootenai County and must have a water source.

We do not need water in the plant except for toilet, drinking, and a small lawn in front of the office. We will employ one or two people steady with three or four during busy seasons.

According to the regulations we do not need a permit for "Domestic water not exceeding 13,000 g.p.m.". In a legal way this is not domestic, or is it? Our use will be far under this 13,000 g.p.m. figure.

Please advise, and if we do need a permit, please send the necessary forms.
