Re: Permit No. **G-25900**

Martin Chesnut
 Coeur d'Alene Public Golf Course
 1212 Montana Avenue
 Coeur d'Alene, Idaho

Dear Mr. Martin:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **G-25900** shows the well is ~~(one)~~ capable of conveying **87.5** miner's inches, or **1.75** c.f.s. of water for the irrigation of **160** acres.

Upon receipt of the statutory fees, totaling **\$19.00**, we will issue the Certificate of Completion of Works (fee **\$5.00**) and the License and Certificate of Water Right (fee **\$14.00**, based at the rate of **\$2.00** for each **1.0**-acre subdivision) confirming the right, with priority of **August 12, 1955** to the use of **1.75** second feet of subterranean water with the point of diversion in the **SE $\frac{1}{4}$ SW $\frac{1}{4}$** of Section 3 for domestic use and irrigation of **160** acres in the **SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$** of Section 3, Township 50 North, Range 4 West, B.M.

Since your permit does not include the **NE $\frac{1}{4}$ SE $\frac{1}{4}$** it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of **\$1.00** for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total **\$17.00** and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Dear Mr. Carter:

Re: Permit No. G-25900

Replying to your letter of July 18 relative to the ^{permit} ~~point~~ of the Coeur d'Alene Public Golf Course, I only have three questions regarding form 36. In your first paragraph, you refer to the diversion of 1.75 cu. ft. per second of underground water. Our pump will draw up to 2.4 cu. ft. per second and we hope that we can draw this amount if your office will permit. If this figure should be inserted in the first paragraph rather than the 1.75, will you please do it for us. Also under item 3, should there be an amount as to cubic feet of water that will be applied for beneficial use. Approximately 2.2 cu. ft. per second will be applied on the golf course and 0.2 will be used for human consumption.

There are no changes to be made unless the above needs to be corrected. If any part of the ^{above} ~~mentioned~~ needs to be corrected, will you please make the changes in our behalf.

I attempted to call you several times by telephone on Friday, but was unable to do so. If the form is not correct, will you please call me collect in Coeur d'Alene at MOhawt 4-3867 any time Monday, ~~July~~ 25. Our time is short, but this must be completed so that I would appreciate being called if everything is not correct.

Thanking you in advance, I am:

Coeur D'Alene Public Golf Course
Coeur d'Alene, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-25900 are due not later than September 2, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
