MEMORANDUM

Date: April 15, 2003
To: Transfer 70420
From: Sharla
Re: Transfer 70420

This transfer was filed to consolidate the city's water rights to allow use from all their wells within the system. One new well is proposed in the NESE, S35, T51N, R4W.

The map attached to the transfer application shows the 4th Street well to be in Sec. 12, however, its location is at the corner of 4th St. and Best Ave. and has not been listed as being changed from the original right. The SWSW, S1, T50N, R4W will remain as the pod description.

Authority to File

All rights are currently in the name of the city or in the name of Idaho Water Co. which is now the City of Coeur d Alene.

Water Right Validity

The city has lost production from its existing wells over time and intend to recover the production from the addition of one new well to their municipal system. Forfeiture is not an issue. Five of the rights have been licensed since 1993.

Injury to Other Water Rights

There have been no complaints made to the department by individuals claiming injury nor were there any protests filed against the issuance of this transfer. There is only one other right on record with a point of diversion within the same 40-acre tract as the new proposed well and that right is for 0.04 cfs for commercial purposes.

Enlargement of Use

The city is not proposing to increase its pumping beyond the limits of their water rights nor will they serve any water users outside their service area.

Local Public Interest

Local public interest is deemed to be served by the very nature of these rights.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

The application has been advertised; no protests were received.

Hi Ruby - hope you had a wonderful weekend since you probably won't receive this before Monday morning.

You have been such an angel to work with, and I'm sorry to have you need to make a correction for me. I just missed something when compiling all those rights in the list. It is a minor correction for you, I hope.

I have found one error I need to have corrected. Cover letter also sets forth same information - just as a backup, I am trying to cover all bases.

Under the **Right No. 95-8647** (third Right in the listing), I neglected to **remove** the **NENWNW** from the Point of Diversion. **The Point of Diversion should only include S35 T51N R04W in that particular right.**

I have redone the legal and attached the corrected one from which you can work, or you can simply **remove** that **NENWNW** from the **Right No. 95-8647**, whichever works best for you.

Thanks very much.

I will be looking for the new proof the first of the week.
