Dear Mr. Peringer:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25472. The proofs are to be made at 11:00 o'clock A.M., on the 29th day of December, 1959, before J. H. Gridley, Coeur d'Alene, Notary Public.

As of this date we have mailed the Notice to the Coeur d'Alene Press with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

RE: Permit No. G-25472

Mr. Roy P. Peringer
South 2427 Helena Court
Spokane 33, Washington

Dear Mr. Peringer:

In reply to your letter of July 10, 1957, to complete the "water right" you mentioned, first it is necessary that you obtain an Assignment from Mr. Finneman, which assigns Permit No. G-25472 to you. Enclosed is the form for this purpose. This "Assignment" to be returned to this Department along with fifty cents, which is the statutory fee for recording. Then you may proceed in making your proofs.

Before these proofs can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in the County newspaper. For this required information, we have enclosed Form 36, in duplicate, which you are to complete and return.

In filling out this form, be sure to include the time, the date, (allowing for four weeks publication), the place, any place convenient for you and two witnesses, the notary public before whom you will appear to make the proofs, the quantity of water filed on, for what purpose the water is used, the point or points of diversion and the lands which are irrigated.

Also, enclosed is Form 11, which is the authorization for us to have the Notice of proof published in the designated county newspaper, at your expense. This is to be returned with Forms 36.

At the time we send the Notice to the newspaper, we will also send you the forms for the depositions of holder and two disinterested witnesses, which are to be executed at the time, on the date set and before the Notary Public as advertised in the publication of Notice.

In regard to more water, it will be necessary for you to make application for another Permit.

Dear Sir:

I am writing in respect to water permit No. G 25472 recorded in book 90 issued to Andrew Finneman.

Finneman sold the land to me. I have now completed the well and installed 200 horsepower motor and pumps. We hit water at 206 feet, total depth of well 237 feet.

I would like the final water right. If I should desire a little more water than stated in application, could that be modified without much trouble?

Sincerely,

Dear Mr. Finneman:

We have your letter of February 4 returning Permit No. G-23579 and enclosing an application for a new Permit which we assume is to take its place.

In checking the new application we note that it differs in two respects from Permit No. G-23579 and that is alright if you wish to make the changes.

First, Permit No. G-23579 is for 2.24 second feet (or 112 inches) and the new application is for 3.58 second feet (or 179 inches).

Also Permit No. G-23579 describes land in the S $\frac{1}{2}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of Section 25, Township 51 North, Range 5 West B.M. and the W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 30, Township 51 North, Range 4 West, B.M., whereas your new application describes the entire N $\frac{1}{2}$ of Section 25 and nothing in Section 30.

In reply to your inquiry about another well in a different location. If the water from this well is to be used on the same land, it may be included in your new application, and Question 4 should give the location of both wells.

We return the application for any necessary corrections and it should also be signed on the line indicated on the third page.

If you wish to apply for more than the 2.24 second feet of water, the filing fee will be more than \$5.50, being at the rate of \$5.00 for the first second foot and twenty-five cents for each additional second foot or fraction thereof.
