Coeur D'Alene, Idaho

Dear Mrs. Oxford:

Regarding your telephone call this morning we can report that Fred Bramer has a licensed water right for 0.3 cubic feet per second from Houser Lake, with a priority of Feb. 6, 1953. Point of diversion is in Lot 10, Sec. 12, T. 51 N., R. 6 W., B. M. The land list is 13 acres in SE1/4SW1/4, and 22 acres in Lot 10, all in Sec. 12, T. 51 N., R. 6 W., B. M.

A certified copy of the deed of sale from Bramer to you or a duly executed assignment form will be necessary before the subject permit can be transferred to your name. We enclose assignment forms if needed.

To obtain additional water for other lands you should file a new application. Please be sure that all questions are answered correctly and that proper filing fee is attached to the application. Since the Idaho Code states that this office must accept all applications for unappropriated water, we will receive it for recording, providing existing permits are not endangered or infringed upon.

We are enclosing the necessary forms and instructions for making an application for water permit on additional lands.

Trust this answers your request.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
