NOTICE OF PUBLICATION
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 24th day of October, 1952, at Coeur d'Alene, County of Kootenai, State of Idaho, before Esther L. Johnson, Notary Public, 117 Coeur d'Alene Ave., proof will be submitted of the application to beneficial use of $\frac{1}{2}$ cubic foot per second of the waters of Cable Creek in accordance with the terms and conditions of Permit No. 21233 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Ray R. Anderson, Route 2, Post Falls, Idaho.

The use to which said water has been applied is Irrigation.

The amount applied to beneficial use is $\frac{1}{2}$ cubic foot per second.

The place where said water is used, Lots 1 and 2, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 25, Township 50 North, Range 6 West, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is a pipe line that is part of the sprinkler irrigation system.

The right to take water from such works is based upon Permit No. 21233.

The source of supply from which such water is diverted is Cable Creek, a tributary of the Spokane River.

The date of priority which said user is prepared to establish is September 11, 1952.

MARK R. KULP,
State Reclamation Engineer.
Sept. 26, Oct. 3, 10, 17, 1952

Mr. & Mrs. Robert Pielaat
Route 2, Box 323
Post Falls, Idaho 83854

Dear Mr. & Mrs. Pielaat:

In researching our records we find only two recorded water rights from Cable Creek, License no. 95-2085 in the name of Ray R. Anderson being the earliest.

These are at present the only two rights recognized by this department. A decree through court action could establish constitutional or use rights with an earlier priority than that of License no. 95-2085, but we do not recognize them until such action has been taken. As long as you continue to exercise your right, you have first claim to the waters of Cable Creek.

If we may be of any further assistance, please contact us.

Our records indicate two rights filed on Cable Creek. One is License 21233 issued to Ray R. Anderson of Post Falls, for the use of .3 cubic feet per second on part of Lots 1 and 2 of Section 25 with a priority of August 24, 1949. The other license, No. 26512 issued to Albert J. Charbonneau of Post Falls, for the use of .5 cubic feet per second on SE 1/4, Section 25. We cannot tell which part of Lot 2 you own therefore, we have listed both rights on Cable Creek.

We are enclosing an application and instructions for your use in case you desire to file.

Dear Madam:

In reply to your letter of May 21, 1958, in which you request to know the procedure to follow to transfer said licensed water right from Ray R. Anderson to whom said license was issued, to Paul R. Gunn and Elsie C. Gunn.

We wish to state that after license has been issued by this department on a water right of this kind, we cannot change the name from the name that the license is issued to, to another. It is not necessary, however, because a licensed water right of the State of Idaho is considered real property and can be transferred the same as real estate. The amount of water shown on the license is appurtenant to the land listed thereon.

PROOF OF COMPLETION OF WORKS

Mr. Ray R. Anderson
Route 2
Post Falls, Idaho

Boise, Idaho **August 1, 1951**

Dear Sir:-

Under the terms of your Permit No. 21233..... you are required to complete your diversion works on or before October 6, 1951..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

In reply to your letter of May 15, 1950, in regard to your Washington neighbor applying for a water right from Cable Creek:

Our records show that you hold Permit No. 21233 for one-half (1/2) second foot of water from Cable Creek for sprinkler irrigation.

If your neighbor wishes to file for a water right it should be done through Olympia, Washington.

Dear Mr. Kulp,

I am writing you for information concerning 2nd water rights. Last year I obtained first water rights on Cable Creek that runs through my place in Idaho.

My neighbor who lives across from me is in Washington & would like also to use the water for sprinkler irrigation.

We could work out a very good program & he would like to know if it possible for him to file for 2nd water rights.

I also understand that it would have to be filed at Olympia.

Any information you could give me on this matter would surely be much appreciated.

Dear Mr. Anderson:

We have placed on file your application to appropriate one-half ($\frac{1}{2}$) cubic foot per second of water from Cable Creek and enclose Departmental Receipt No. 21765 for the \$5.00 filing fee.

However, we cannot quite reconcile the land description given under Question 14 with the sketch map which you enclosed. We have therefore prepared another sketch map which we think correctly locates the land which you wish to irrigate. Please advise if this is correct and if not, please correct in accordance with actual conditions.

The application should also be signed by you on the line indicated on Page 3.

Dear Mr. Anderson:

We have no record of any appropriations from Cable Creek in Idaho and would not have a record of appropriations in Washington even if there were any.

In any event, we assume that as long as the stream is in Idaho, the water is public water and subject to appropriation.

If an appropriation in Idaho interferes with a prior appropriation in Washington, the prior appropriator could bring suit in the Federal Courts against interference and the Court might disregard the State line.

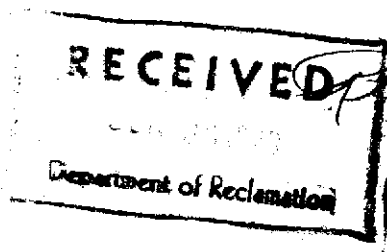

We do not favor the use of a State line to take water from someone who is acting in good faith and making beneficial use of the water below the State line, but if there is enough for both, there is no reason why you should not appropriate what he does not need or is not using.

Dear Mr. Kulp,

I am planning on putting in a sprinkling irrigation system & would like some information concerning the stream running through my place.

I live on the Idaho, Wash. line just in Ida. & have been wondering if it be necessary for water rights. I was told a man farther on down the stream in Wash. had the water rights for that reason would leave me out.

If by any chance this might go through I would be using about 80 gal. per min.

The stream has a very good flow the year around by this place, but disappears down stream in Wash. in early part of summer.

For the rest of the season I would plan on sprinkling about 20 acres.

My plans for next year would run some where abouts 30 acres.

The name of this stream is known as Cable Creek, & is coming down from the mountains south of me & is spring fed.

The location of this farm under the name of Simon G. Hill is located Block or Section 25, Twp. North 50, Range B. M. 6 N.

My pastures & fields are drying up fast & would appreciate any information you might give to me in regards to what I should do.

Thanking you kindly
