RE: License No. 19604  
Dennis A. Wilson

Ralph E. Davidson  
Rt 2, Box 270  
Post Falls, Idaho

Dear Mr. Davidson:

Enclosed is Receipt No. 32486 for \$4.00 fee for a copy of Permit No. 19604. Also enclosed is a copy of the water license issued under the permit.

The water license is the final certificate of water right.

The report of the field examination shows that Mr. Wilson intended to increase the capacity of his system in order to irrigate all of the S<sub>2</sub>SE<sub>4</sub>, Sec. 12, T. 50 N., R. 6 W., B.M. I find no record of his obtaining a permit for the increased amount of water.

After this office issues a water license, the water right passes by deed and should be shown on your deed to the land. The water is appurtenant to particular land and passes with ownership of the land, unless previously transferred or specifically withheld.

Very truly yours,

RALPH W. THOMAS  
Deputy State Reclamation Engineer

Dear Mr. Ingalls:

We have your letter of November 22, 1955, enclosing your Affidavit in connection with proof of Beneficial Use on the above numbered Permit in the name of Dennis A. Wilson.

This completes the proof, but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact Mr. Wilson at the time he makes the examination in order that he may arrange to show him over the ground.

Gentlemen:

PERMIT NO. 19604

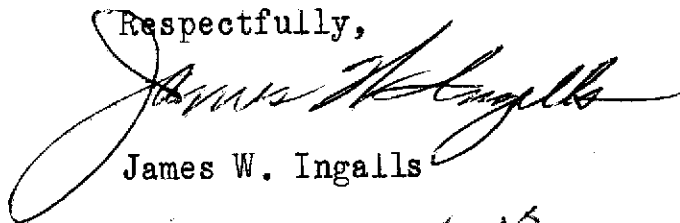

Herewith Proof of Application of Water to Beneficial Use  
for the above entitled permit.

Some of the answers thereon are necessarily not favorable, as this is a permit which was issued and application was made therefor a long time prior to the beginning of Mr. Wilson's interest in the property. You will note that none of the witnesses are familiar with the terms of the Permit or the dates of priority, as they do not know when the application for permit was made and have never seen it; as Mr. Wilson's predecessors apparently misplaced the application and permit and were never able to deliver it to him. The proofs also refer to the original application for the place of diversion. Each of the affiants knows, however, that the place of diversion is the same place as originally used and as referred to in the original application.

If you deem the proofs insufficient, would you return them to me, together with a copy of the application for the permit so that the affiants may refer to it and may familiarize themselves with its provisions and conditions.

Thank you in advance for your kind cooperation.

Gentlemen:

We have checked the notice in connection with Permit No. 19604 of Dennis A. Wilson and find one slight typographical error:

The word use in the third line of the fifth paragraph is misspelled.

Please make this correction in your subsequent issues.

RE: Permit No. 19604

Mr. James W. Ingalls  
Attorney at Law  
Coeur d'Alene, Idaho

Dear Mr. Ingalls:

In accordance with your letter of June 21st, we have set the date for making proof of beneficial use on Permit No. 19604 at 10:00 A.M., July 25, 1955.

As we are not sure which day the Coeur d'Alene Press carries their legal notices, this seems to be about the earliest date that we could be sure of getting in four weeks publication ahead of the date set for proof.

We are sending a copy of the notice to the Coeur d'Alene Press with instructions to publish it once a week for four weeks prior to July 25 and to send Mr. Dennis A. Wilson the affidavit of publication together with statement of costs.

We enclose the forms of deposition to be executed before you as Notary Public by Mr. Wilson and two disinterested witnesses.

These proofs should be transmitted promptly to this department together with the affidavit of publication which is an essential part of the proof.

There is no fee due at the present time so we return Mr. Wilson's check for \$5.00 enclosed in your letter. After this proof has been submitted an inspection will be made by an engineer from this department and when this has been done, we shall notify either you or Mr. Wilson in regard to the amount of the License fee.

Very truly yours,

Dear Mr. Shore:

We acknowledge receipt of your letter of February 6, 1950, advising that Mr. Marion H. Rowlands is the present owner of Permit No. 19504 and enclosing Affidavit in Proof of Completion of Works under this Permit, and his check for the \$5.00 fee in connection therewith.

A search of our records on this Permit discloses that Proof of Completion of Works was made by Mr. H. L. Barrett, the original owner of said Permit, and Certificate of Completion of Works issued in November, 1947. The form notice of this proof was sent to Mr. Swartout in error and we therefore return Mr. Rowlands deposition and check.

Proof of Beneficial use requires publication once a week for four consecutive weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place for making the proof and naming the Notary Public before whom the proof is to be made.

The proof may be made at Post Falls, or any place convenient for the Permit Holder and two witnesses, and the date should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of Form 10 are to be returned to this Department, together with Form 11 which is the Permit Holders authorization for us to have the notice published at his expense in the designated county newspaper.

However, before Mr. Rowlands can make this proof, it will be necessary for him to furnish this Department with an Assignment from Mr. Swartout or the Deed transferring the property to him. The Assignment may be made on the form enclosed, and there is a recording fee of fifty cents (\$.50) required.

Dear Mr. Swertout:

In reply to your letter of October 31, 1949, you are quite right in your assumption that Beneficial Use Proof under Permit No. 19604 will not be due until March 10, 1955, and it will, of course, not be necessary to file an Application for Extension.

In writing you on October 19, we noted that Mr. Barrett had stated that he was ready to make Proof of Beneficial Use and we overlooked the fact that this was not actually due until a later date.

Very truly yours,

Dear Madam:

This will refer to your letter of  
October 19th, relative to Permit No. 19604,  
water right on my farm.

Do not fully understand the necessity  
for the execution of the "Application for Extension  
of Time for Beneficial Use Proof", as the concluding  
paragraph of Permit 19604, dated March 10, 1945  
provides that "Beneficial use of water appropriated  
in accordance herewith, to be made on or before  
March 10, 1955."

Will it be necessary to fill out and  
return the extension application above referred to?

Yours truly,

Dear Mr. Swartout:

We acknowledge receipt of your letter of October 6th, enclosing assignment of Permit No. 19604 from H. I. Barrett and wife to yourself.

This will be recorded in this department upon receipt of the statutory fee of fifty cents (50 cts.).

No doubt Mr. Barrett has handed you this permit, and you understand that it is not yet a complete water right, but that proof of beneficial use will be due on or before March 10, 1955.

Mr. Barrett advised us, under date of March 22, 1949, that he was prepared to make this proof, in reply to which we sent him the proper forms, but no further action has been taken.

We shall be glad to furnish you with the proper forms and instructions, upon receipt of request.

Dear Mr. Barrett:

We are in receipt of your letter of March 22, and note that you wish to make Proof of Beneficial Use under your Permit No. 19604.

The law requires publication of notice for four consecutive weeks, prior to the date of making Beneficial Use Proof. This notice should be made in duplicate on Form 10, enclosed, setting the time and place, and naming the Notary Public before whom the proof is to be made.

The Proof may be made at any place convenient to you and your two witnesses, and the date, of course, should be set sufficiently far ahead to allow for the four weeks publication.

Both copies of Form 10 are to be returned to this Department together with Form 11, which is your authorization for us to have the notice published at your expense, in the designated newspaper, in the county where your water is located. We shall then send a copy of the notice to the newspaper, with instructions in regard to publishing.

Attention- Mr. Philip S. Brooke

Dear Sirs:

We acknowledge receipt of your letter of October 25th, enclosing affidavit of H. L. Barrett in proof of completion of works under Permit No. 19604, accompanied by check in payment of the \$5.00 fee in connection therewith.

We note that Paragraph 8 of this affidavit describes the place of use as "Government Lots 9 & 10; N $\frac{1}{2}$  of SW $\frac{1}{4}$ ; N $\frac{1}{2}$  of SE $\frac{1}{4}$  of Section 12, Twp. 50 North, Range 6 West, B.M."

However, the permit itself only describes Lots 9 and 10 (containing 80 acres), and we enclose a copy of the sketch map which accompanied the application. We are not sure whether Lots 9 and 10 include the shaded part of the N $\frac{1}{2}$ SW $\frac{1}{4}$  and N $\frac{1}{2}$ SE $\frac{1}{4}$ , which would seem to be correct from the acreage given, or whether the permit should also include these two latter subdivisions in addition to Lots 9 and 10.

In either event, the answer to Par. 8 in the affidavit is incorrect, and we return same for your further advice and correction.

Attention- Mr. P. S. Brooke

Dear Sirs:

As requested in your letter of September 20th, we enclose a form for making completion of works proof under Permit No. 19604.

This affidavit should be executed by the permit holder before a Notary Public, and returned to this department with the statutory fee of \$5.00.

Upon approval, a certificate of completion of works will be issued.

There will then be one further proof necessary to complete the water right- that is, the proof of beneficial use of the water for the purpose for which it is intended. This proof is not required, under the terms of the permit, until March 10, 1955, but can be made at any time prior that the permit holder desires.

Notice of such proof must be published once a week for four consecutive weeks prior to the date proof is to be made, and the forms for such notice will be furnished by this department.

Dear Mr. Barrett:

We acknowledge receipt of your letter of March 17th. in which you request an extension of time for commencing work under your Permit No. 19604, until September 10, 1945.

Section 41-204, Idaho Code Annotated, provides that within sixty days from the date the permit is issued the "permit holder must commence the excavation or construction of the works by which he intends to divert the water".

This is a statutory provision, and we can see no reason why some of the work on the pumping plant excavation could not be commenced at once, or within the 60 day limitation.

Permit to appropriate Public waters of the State of Idaho has been received, for which I thank you. Therein it is stipulated " Work to begin May 10, 1945 ".

Considering that part of the lands to be irrigated is now in winter wheat, and also the factor of difficulty in securing some materials on short notice, may I ask that date of time to begin work be extended to on or before September 10, 1945.

If not inconsistent with rules and regulations, I would greatly appreciate such extension of time.
