RE: Permit No. 94-07337

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that the department can only grant one extension of time based on due diligence. Please note on July 26, 1994, the Department granted an extension of time in connection with this permit.

Your best option at this point would be to file proof of beneficial use for the portion of the water right that has been developed. I have enclosed a Proof of Beneficial Use form and instructions for your convenience. Be advised that since the extension was denied, the permit will lapse on November 1, 1995, and is of no further force nor effect unless it is reinstated by submitting proof of beneficial use.

If you have any questions or if the department can be of any assistance, please feel free to contact us or any of the regional offices.

RE: PERMIT NO. 94-07337

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

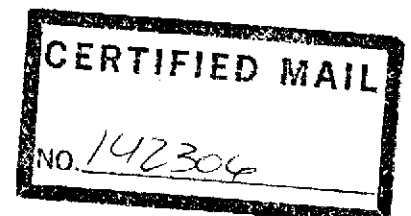

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary
