We have a black plastic hose running from the unnamed creek to our house by gravity feed. The diversion rate is approximate. The best service just bought some of the pipe and cut here and some is still private which is why we are uncertain of the ownership at the point of diversion.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 94-7258, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

for August 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other:

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.

MEMORANDUM

TO: File 94-7258
FROM: Sharla
DATE: September 12, 1990
RE: P/D Determination

A request for the submittal of a licensing amendment was made in light of the fact that the examination report listed the point of diversion as being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, S32, rather than the SW $\frac{1}{4}$ NW $\frac{1}{4}$ as originally permitted.

After reviewing incoming correspondence along with its attached subdivision plats, it was determined that the point of diversion is actually located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ as originally filed. The license will be issued with this description as well as listing the source of water as an unnamed stream (creek), therefore, no amendment is necessary.

Dear Sharla Curtis:

This letter is in regard to Permit No. 94-7258, Jeanne Bell's use of domestic water resource. You claim her water source is Gimlet Cr. based on a very poor drawing by an employee of yours whose name is not on the map. It does not show which direction is north. I have included copies of the plat showing the boundaries of Jeanne Bell's land - parcel 15 on the plat, so that you might have a better picture. As you can see on the plat, Gimlet Cr. forms part of the Northwest boundary of her land. It is NOT the source of her water. It is too low in elevation with respect to her house and for most of the year is a dry creek bed near her house. The source of her water is an unnamed spring creek 175-200 ft. south of Gimlet Cr. Its historical use is documented on the plat as a spring hole easement. As you can see the plat is dated Oct. '74, so its use for a water source certainly pre-dates Oct. '74 and has been in use continuously since Jeanne has owned the land, since March 1977. I regret to call your employee on his/her inaccuracies, there should be no extra charge to Jeanne Bell as her original filing is correct. Your employee should take a course in mapping.

I've lived with Jeanne Bell in that house since May 1979. Currently I am employed by the State of Idaho, Dept. of Transportation as an engineering aide. I do surveying as part of my job. I've been a surveyor

since June 1974 - 16 years - and have a great deal of experience making topographic maps and plats. I find the tone of your letter insulting and patronizing. For you to believe an examiner's lousy drawing over residents familiar with the area belies your ignorance and arrogance. It seems you just want to lever an additional tax out of her when you have made a serious mistake. You owe her an apology and your examiner a reprimand. I would not tolerate such an attitude in anyone under me. Please correct yourself quickly.

Yours truly,

Richard J. Wernel

RE: Permit No. 94-7258

Jeanne Bell
Box 311
Kingston, ID 83839

Dear Ms. Bell:

We have received your correspondence stating your reasons for disagreement with the findings of our field examiner as reflected in the amendment we previously sent to you; we offer the following in response.

The Department's examiner found the source of water being used as Gimlet Creek. Enclosed is a copy of the diagram drawn by the examiner showing the water delivery system. If you can submit documentation to show that the creek you divert from is not Gimlet Creek, we can re-evaluate our description of the source of water.

Finally, you asked if the \$20.00 fee was for the license or the amendment. This fee is the standard filing fee for an amendment and has nothing to do with the original \$30.00 you paid at the time you filed for a water right.

Please submit any information you have within 15 days to show that your source of water is not Gimlet Creek. If you find you agree with the amendment as set forth, please sign and return it with the filing fee within the 15 day period. If we do not receive a response from you within that period, we will commence proceedings to void the permit.

Sincerely,

SHARLA CURTIS

Dear Jim Johnson

Regarding the application for amendment for water rights, permit number 94-07258, I do not concur with your findings.

Gimlet Creek is not the source of my water use. It is very likely polluted by logging activities and dries up during the summer.

My source of water is an unnamed spring/creek approximately 100 yards south of Gimlet Creek, as stated on the original application for water rights.

I thought I had already paid \$30.00 for this permit. Is this \$20.00 charge for the license itself or an extra charge for the amendment? Please let me know. Thank You.

Sincerely,

Jeanne Bell

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

Re: 94-07258

Dear Ms. Bell:

We are planning to conduct water right field examinations in the vicinity of your above-referenced water permit during the week of August 7th.

A field examination is needed to verify your water use so that a water license can be issued. In order to conduct your exam as efficiently as possible, please call this office to schedule a day and time during the above-referenced week which will be convenient for you. Please note that your system should be operating under normal conditions during the examination. We previously tried to conduct the exam, however we were unable to locate the property from the legal description. Please contact us by telephone so that we may complete the exam.

If there is a problem with scheduling or conducting the examination at this time, please call us at 765-4639 and other arrangements can be made.

Sincerely,

CHARLOTTE AMMON

Re: 94-7258

Dear Ms. Bell:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

PROOF DUE NOTICE

RE: Permit No. 94-7258

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

Dear Ms. Bell:

I regret to inform you that the filing fee for an Application for Permit is \$30.00. So, I am returning your Application for Permit and Money Order No. 66-35 in the amount of \$20.00. Before you refile, I feel it would be in your best interest to either contact an attorney at law or this office.

The reason I suggest this is that you may have a water right and you may not need to file the application. You may also not have a water right and if you have no possessory interest in the land, a permit even if issued, would not be valid. From the information you have provided, your right to the use of this water is tenuous and you should seek assistance,

If you would like assistance from this Department, please contact me at this office.
