Dear Sirs:

Our water permit has become a thorn in our sides. We pumped water to the house from the lake for two years. The next year the Black Lake, Kootenai County became polluted in the fall of the year. We would have pumped that pollution thru our system if we hadn't been cautious & pulled the pumps for winter just before the pollution reached our cabin.

In 1972 or 1973 we wrote you that this lake would become contaminated if Ring Ranch pumped all the moisture from its feed lot into the lake. They are ready to feed a great many cattle a gain on their meadows which will be pumped directly into the lake. We understand cattle are 20 times as potent contamination wise as people & yet you are so particular about people.

This lake managed to survive this until after the ash fell sealing the lake bottom with 1/2 inch of ash.

Very Truly yours,
Tommy John V. Nelson
