PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 93-07056 Telephone No. 208-686-1258

2. Name of Permit Holder(s): City of Worley

3. Mailing Address: P.O. Box 169

City Worley State ID Zip 83876

4. Source of Water: Ground If **GROUNDWATER** (well), Date Drilled: mo. 8 / yr. 99

Well Tag #: D000572

a. Well Driller: Fogle Pump & Supply Inc. Drilling Permit Number: 93-99-N-0001-000

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): 175+ Stockwater (No. and type of stock): N/A

Irrigation (No. of acres): N/A Other: N/A

6. Total rate of diversion and/or volume for which proof is submitted: 50 cfs OR N/A acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes ☐ or No ☒

Has the measuring device been installed?

Yes ☐ or No ☒

8. Fee Enclosed: \$ 100.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Jeff Bloomsburg Telephone Number: 208-686-1258

Address: P.O. Box 169 Worley ID 83876

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Carolene Haddell Date: 1/12/00
(include your title, if on behalf of company or organization)

Permit To Appropriate Water

NO. 93-07056

Proposed Priority: December 9, 1998 Maximum Diversion Rate: 0.50 CFS

This is to certify, that CITY OF WORLEY
PO BOX 169

WORLEY ID 83876-0169

has applied for a permit to appropriate water from: GROUNDWATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
-----------------------	----------------------	--------------------------

MUNICIPAL	01/01 to 12/31	0.50 CFS
-----------	----------------	----------

LOCATION OF POINT(S) OF DIVERSION: NESE, Sec. 23, Township 47N, Range 05W
KOOTENAI County

PLACE OF USE: See Remarks

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 2000.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. Place of use is within the city limits of Worley and surrounding service area.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

5th day of February, 1999.

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Department of Water Resources

1. Name of Applicant City of Worley Phone (208) 686-1258
Mailing address P.O. Box 213¹⁶⁹, Worley, Idaho 83876
2. Source of water supply Ground water which is a tributary of _____
3. Location of point of diversion is Township 47N Range 5W Sec. 23 in the _____ 1/4,
NE 1/4, SE 1/4, Govt. Lot _____, B.M., Kootenai County;
additional points of diversion if any: _____
4. Water will be used for the following purposes:
 Amount .50 for Municipal use purposes from Jan. 1 to Dec. 31 (both dates inclusive)
 (cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per annum)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) .50 cfs and/or (b) _____
 cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Describe type and size of devices used to divert water from the source well - 1 new well
 - b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet
 - c. Proposed well diameter is 8" inches; proposed depth of well is 400 feet
 - d. Is ground water with a temperature of greater than 85°F being sought? NO
 - e. If well is already drilled, when? _____; Drilling firm _____
 Well was drilled for (well owner) _____; Drilling Permit No. D5702
7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)
8. Description of proposed uses (if irrigation only, go to item 9):
 - a. Hydropower; show total feet of head and proposed capacity in KW. _____
 - b. Stockwatering; list number and kind of livestock. _____
 - c. Municipal; show name of municipality. City of Worley
 - d. Domestic; show number of households. _____
 - e. Other; describe fully. _____

MICROFILMED

APR 15 1999

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	N E				N W				S W				S E				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. 93-07007

11. a. Who owns the property at the point of diversion? City of Worley
- b. Who owns the land to be irrigated or place of use? City of Worley
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Remarks: Currently the City of Worley has a License of Water Rights #93-7007 for diversion of 0.25 cfs of water from a ground water source. The City needs .50 cfs more to meet instantaneous flow requirements

PLACE OF USE IS WITHIN SERVICE AREA OF CITY OF WORLEY.

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 93-07056

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **NORTHERN** Regional Office of the department in Coeur d' Alene at (208) 769-1450.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 93-07056

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 2000. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 93-07056

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

APR 15 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Well ID Tag No. D5702

To Whom it May Concern:

The State of Idaho has started a Well Identification Program to protect Idaho's ground water. This Program will help protect your well, your health, and your property values. Building a record of good well and water quality protection is money in the bank.

Your well has been assigned a well identification number. It is imprinted on the stainless steel tag D5702, along with the permit and receipt for your records. The drilling firm that you have chosen is responsible for having the Well Tag and a copy of the Application in the possession of the driller during all phases of well construction. He is also responsible for attaching the Tag to the well; however, you are responsible to see that the driller has the tag and permit in his possession before construction begins so that the tag is attached to the well head at the time of completion. This unique well number should remain affixed to your well forever and should be written on all information about your well and referenced in all inquiries about your well. (The actual well driller must be identified to IDWR prior to drilling commencement as well as proposed construction starting date.)

Your well identification number will assist you in tracking water quality and water quantity changes in your well. It also establishes a link between well construction and public health records. In addition to using your well identification number, we recommend the following protection practices for your well to preserve the quality of your drinking water:

DO:

Test your well for bacteria annually and for nitrates every three years (especially if you have an infant under six months of age.) Be sure to write your well identification number on each lab slip.

Keep your well tightly capped with a sanitary seal to keep surface contaminants and small animals or insects out. Maintain screening on any vents or openings on top of your well casing.

Keep the area around your well clean.

DON'T:

Remove the well identification tag.

Store hazardous materials such as paint, oil, gasoline, anti-freeze, garden chemical, rat poison, and trash near your well or in your well house.

Let farm animals pasture around your well, particularly if the well is in a low spot where water can collect.

If you have any questions about testing your well, please contact your local Health Department. If you have questions about the Well Identification Program call Tom King or Carolyn Monitz at the Department of Water Resources, Northern Region at (208) 769-1450. We all have a stake in clean ground water - with your help we can protect our ground water for your use and for future generations.

Also, your Water Right Application has been processed and you will be notified by the Boise office upon approval.

Sincerely,

MICROFILMED

Carolyn Monitz, Records Clerk
Tom King, Sr. Water Resource Agent

Worley, ID 83876

RE: Well Site Approval - Worley Well Site # 3

Dear Mr. Bloomsberg:

This letter is to confirm that the Division of Environmental Quality (DEQ) has inspected and approved the proposed well site for the City of Worley, well site #3. Please observe the following setbacks and restrictions. The well must be located in excess of:

- 50 feet from a sewer line,
- 100 feet from all septic tanks,
- 100 feet from all individual home septic tanks,
- 100 feet from all individual home seepage pits,
- 100 feet from all privies,
- 50 feet from all livestock,
- 50 feet from canals, streams, rivers, ditches, lakes, and ponds.
- 50 feet from all tanks used to store non-potable substances.

Since the City of Worley owns the public park where the well will be located, there should be no problem in controlling potential points of contamination within a 100' radius of the well. To ensure that the well is located in excess of 50' from the sewer lines in the roadways you may wish to locate the well closer to the center of the park.

The following tests need to be run prior to usage:

- Phase II & V inorganic chemical analysis (also include nitrate and nitrite),
- Corrosivity,
- Phase II & V volatile organic compounds,
- Phase II & V synthetic organic compounds,
- Quarterly radiological contaminants for one year.

If you have any questions or comments on this matter please feel free to contact me at the DEQ in Coeur d'Alene. We are located at 2110 Ironwood Parkway, phone, 208 769-1422.

Sincerely,

Anthony P. Davis
Water Quality Compliance Officer

Re: Water Appropriation Application No. 93-07056

Dear Mr. Gilbert:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application. Enclosed for your file is Receipt Number N012559.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If your source is groundwater, a Well Drilling Permit is required for all wells constructed after July 1, 1987.

A "Domestic" well drilling permit should be obtained for a rate of diversion of up to 18 gallons per minute (0.04 CFS) and a daily volume of up to 2,500 gallons per day. The cost for this permit is \$75.00. For any other use, including multiple homes, or municipal, etc., the Drilling Permit fee is \$200. These Permits can be obtained by your driller, also. It is sometimes possible to upgrade an existing Domestic Drilling Permit by submitting a fee for the difference. This, however, depends on the individual well.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
