Dear Mrs. Williams:

This correspondence is written in response to your letter of September 12, 1987. We have reviewed your letter and have concluded that we cannot increase the number of acres irrigated from one to five at this time. The reason for this is that the law restricts the license to be issued to the amount actually found irrigated at the time of the examination.

In the future, if Mr. Williams wants to irrigate the additional lands and even perhaps the 20 acres, he could file for another application at that time.

I hope this addresses your concerns. If you have any further questions, let us know.

Sincerely,

JIM JOHNSON

I am at present residing in his home -
Joe is on active duty in Japan
due to retire very soon -

At the time your examiner was
here I was irrigating part of the
hay field as well as a garden -
The hay field is much more than
50' by 600' I think.

Probably Joe amended it so that
when he retires he may use
the water. He owns twenty
acres (20) where the well is located
and may very well need to use water
on more than one. Please
advise me what to tell him
about that.

It seems to me a man should be able to plan for his future even tho he has spent his nineteen past years on active duty - That includes Vietnam. He is a Seabee -

Plummer, ID 83851

Dear Mr. Williams:

We are in receipt of your licensing amendment and the \$20.00 filing fee. Enclosed is Receipt No. 44536 in the amount of \$20.00.

We noticed that you have changed the licensing amendment to indicate five (5) acres are being irrigated. Be advised that when your system was examined in July of 1984, our examiner found only one (1) acre being irrigated; that one acre being a hay field which was 50' X 600'. Since you had submitted your proof of beneficial use statement, which was an indication that your system had been completed, we must limit your license to the amount found by our examiner when he inspected the system.

If you can provide evidence of all five acres being irrigated prior to and/or during our examiner's visit to your property, we will be happy to review the matter further.

If we do not hear from you by September 30, 1987, we will assume you cannot provide any documentation of the irrigation of the additional four acres and we will proceed with licensing your permit for one acre of irrigation.

If you have any questions regarding this matter, please feel free to contact our office.

Sincerely,

Kay Walker

Dear Mr. Williams:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,
