License of Water Right No. 93-7010 Priority August 26, 1977 Amount 5.16 cfs

THIS IS TO CERTIFY, that Lawson Farms, Inc.
of Tekoa, Washington, has complied with the terms and conditions of Permit
No. 93-7010 issued pursuant to Application for Permit dated August 26, 1977,
and has submitted proof to the Department of Water Resources on December 31, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 5.24 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST APPROVAL)
OF APPLICATION FOR PERMIT NO. 93-7010 IN)
THE NAME OF LAWSON FARMS, INC.)

MEMORANDUM DECISION
AND ORDER

On August 26, 1977, Lawson Farms, Inc. filed with the Department of Water Resources an application to appropriate 5.60 cubic feet per second of water from a groundwater source to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31, Twp. 45N, Rge. 5W B.M., Benewah County, to be used for irrigation purposes from March 15 to October 31.

Notice of the application was published in the St. Maries Gazette Record, St. Maries, Idaho on September 8 and 15, 1977. The Department received protests against approval of said application on September 23, 1977 from Sam Tyler and Walter and Evelyn Olson; on September 26, 1977 from Douglas Howe and Stella E. Hansen; and on September 27, 1977 from Glenn A. Madsen. The protests of all parties but Sam Tyler were withdrawn.

A conference on the matter was held at Coeur d'Alene, Idaho on April 4, 1978. The applicant was present and was represented by Joseph P. Erickson, Attorney at Law. The remaining protestant, Sam Tyler, was not present at the conference but was represented by Gary French. Testimony was heard from both parties and it was agreed by both parties at the conference that the Department should reach a decision in the matter.

The primary concern of the protestant was that the taking of water from the proposed irrigation will interfere with the two domestic wells of the protestant by lowering the water table level.

After reviewing all the evidence and testimony submitted at the conference and the pertinent information contained in the Department's files, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. The aquifer system from which the applicant seeks to obtain water is at least 300 feet below the aquifer systems from which the protestant takes water.
2. A pump test on the well shows water levels of the well to be approximately 100 feet higher in elevation than the aquifer system which is the source of water for the protestant's wells.

3. The well produced 4.92 cubic feet per second during a test pumping with a drawdown of 71 feet. The recovery time for the water level to raise from the maximum drawdown to the static level is about 30 minutes.

CONCLUSIONS OF LAW

1. The diversion as proposed will not interfere with the water rights of the protestants.

2. There is sufficient water available in the well to provide water for irrigation.

3. Applicant is entitled to a permit from the Department of Water Resources.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Application for Permit No. 93-7010 is APPROVED subject to the following conditions:

1. That the permit be and is subject to all prior existing water rights.

2. That proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before April 1, 1980.

3. An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Dear Permit Holders:

On December 8, 1983, we forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment.

If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you.

Since the license will be a permanent water right your prompt attention to this matter will be appreciated.

If you have any questions please contact us as soon as possible.

RE: 93-7010

Gentlemen:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office.

Very truly yours,

TOM D. KING

Dear Mr. Allred:

Please find enclosed the beneficial usage cards for our permits. These should now be in order. We have notified the Coeur d'Alene office of the beneficial usage in the fall of 1979.

All pumps, electrical and metering devices have been installed. We have completed some buried main line and now use some surface main line. All wells were in operation in June of 1979 and were used in the fall of 1979.

I trust this meets the requirements for permits #93-7010, #93-7011, #93-7013 and #93-7014.

Sincerely,

Richard Lawson

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

In the Matter of Protests Against Approval)
of Application for Permit No. 93-7010 in)
the name of LAWSON FARMS, INC.)

NOTICE OF CONFERENCE
AND/OR HEARING

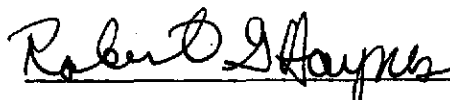

On August 26, 1977, Lawson Farms, Inc. filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. The Department received protests against approval of said application on September 23, 1977 from Sam Tyler and Walter & Evelyn Olson, on September 26, 1977, from Douglas Howe and Stella E Hansen, and on September 27, 1977, from Glenn A Madsen. The protests were withdrawn by Stella E Hansen on October 5, 1977, by Glenn A Madsen on October 6, 1977, by Walter & Evelyn Olson on October 17, 1977, and by Douglas Howe on October 27, 1977.

The Department has set the matter of remaining protest for conference and/or hearing for Tuesday, April 4, 1978, at 10:00 a.m. in the Regional Supervisor's Office, Department of Water Resources, 4055 Government Way, Coeur d'Alene, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 15 day of March, 1978.

Dear Mr. Haynes:

After I received your letter of September 29, 1977, concerning the protests over my application for a water permit, I went out and contacted the parties involved.

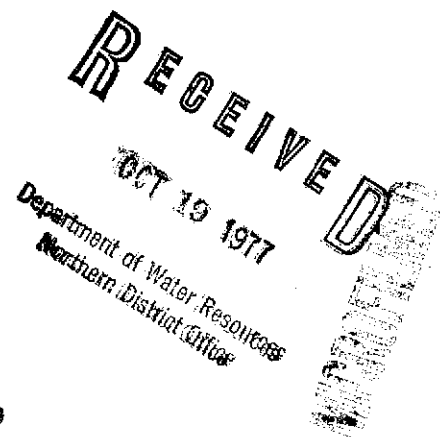

From the conversations that I had with Mr. Glenn Madsen, Mr. Douglas Howe, Mrs. Stella Hansen, Mr. George Mills and Mr. Walter Olson, I believe that they have decided to withdraw their complaint. Only one person to my knowledge did not withdraw his complaint, and that was Mr. Sam Tyler.

Since not all of the parties have withdrawn their complaints, I assume the matter will have to be brought to a conference. I would appreciate it if you could set up this conference at the earliest possible date, so we can get this problem resolved.

Re: protest application no. 93-7010

Dear Sirs:

We have contacted the applicant for the above permit and resolved our protest. It was not our original intention to make any trouble, but we understood we had to have some letter on file in case of future problems arising from this drilled well.

As we are given to understand now, this well will create no problems, we wish to withdraw our protest previously made.

Sincerely yours
Walter & Evelyn Olson

Sirs;

This is to inform you that we have a domestic water well within the distance of 3/4 mile of the well drilled under permit no. 93--7010-Lawson Farms Inc.

If this well in any way affects the flow of water from our well, we will be obliged to protest

Sincerely yours,

Walter and Evelyn Olson

Dear Sir:

This is in reference to permit
No 93-7010 for a well in Benewah
County. I have a well on my
place which is for domestic use.
This is about three miles from
the site of the well the permit is for.
I am concerned whether this will
have any affect on my well.

I am not trying to fight this
permit; I would just like to let
you know my concern of what
might happen to my well.

Dear Mr Mills,

Your protest against the approval of the above referenced application has been received and a copy has been sent to the applicant. The Department suggests you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?
4. Has the applicant sufficient financial resources with which to complete the project?

If we can be of any further assistance, please do not hesitate to contact us.

Sincerely,

Dear Mr C.S. Allard,

I have two domestic wells within
a mile of Larson Farm Inc., (Permit- 93-7010) irrigation
well. One of these wells has been in use
for forty years and the other about 3 years.

If this permit affects these domestic wells
then I protest the use of the said irrigation
well.
