License of Water Right No. 93-7003 Priority Oct. 15, 1971 Amount 0.02 cfs

THIS IS TO CERTIFY, that MAYNARD K. OLSON
of Tensed, Idaho, has complied with the terms and conditions of Permit
No. 93-7003 issued pursuant to Application for Permit dated October 15, 1971,
and has submitted proof to the Department of Water Administration on July 20, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.02 cfs of water from Indian Creek,
tributary to Hangman Creek, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Dear Mr. Higginson,

Re: Water Permit No. 93-7003

I wish to advise you of the progress of our project to bring water from Indian Creek up to our dwellings.

The concrete sump near the point of diversion is completed as is the line coming up to the storage area but because of very cold weather and such a deep frost line we have been unable to continue work.

I would like to apply for an extension of time to allow for some ground thaw to permit completion of the project. I feel that within 90 days we surely should have ample warm weather to complete the storage area and backfill over the pipe so the project will be operational.

Thank you.

Re: Permit No. 93-7003

Maynard K. Olson
Indian Creek Road
Sanders, Idaho 83863

Dear Mr. Olson:

One of the conditions of approval of your water Permit No. 93-7003 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Mr. Clay,

Department of Water Administration

We have eliminated the request
for irrigation rights because our
primary need for water is for livestock.

We hope the form is properly filled
out.

Thank you.

Dear Mr. Olson:

We are once again returning your application for permit and personal check #98-113 in the amount of \$10.00. In reviewing the application, we still have some questions as to your proposed natures of use for the water. Under item #4, you have listed 0.02 cubic feet per second for livestock purposes. We also note that you have included one acre of irrigation under item #8b. If this is indeed the case, then irrigation should also be included under item #4 with a specific quantity and period of use. We also wish to bring to your attention that the irrigation of your one acre appears to be a considerable distance from your point of diversion.

Please review the application carefully and make the necessary corrections and re-submit it with the filing fee so that we may begin its processing.

If you have any questions in the matter, please feel free to contact this office.

Very truly yours,

Dorian Clay

Dear Mr. Olson:

We are returning your application for permit and personal check #98-113, in the amount of \$10.00. In reviewing this application, we find several questions that need clarification before we could process it.

Under item #4, you have indicated 0.5 cubic feet per second for live stock watering. However, in the "Remarks" section of your application, you have indicated that the capacity of your pump would be only ten (10) gal/min which is approximately 0.02 cubic feet per second. Item #5a should also be completed, listing the total quantity of water in cubic feet per second that you are intending to appropriate. In determining the fee for this application, please consult the fee schedule on page four (4) of the enclosed instructions.

If you should have any questions in making these clarifications, please contact this office.

Very truly yours

Dear Mr. Olson:

We are returning your application for permit and personal check #98-113 in the amount of \$10.00. In reviewing this application, we find that there are several questions that need clarification before we could process it.

Please note that item #3a lists the location of the point of diversion as being in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 36. However, your map on page three shows the point of diversion as being in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of the same section, township and range. Item #4 should list a rate of diversion in cubic feet per second for stock watering purposes. Also, please note that item #8a,1 described the place of use as the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 36 and the map describes it as the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of the same section, township and range.

Please clarify these issues and re-submit the application so that we may begin its processing.

If you should have any questions in reference to this matter, please do not hesitate to contact this office.

Very truly yours,

Dorian Clay
