CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 25th day of July, 1994.

Acting for R. Keith Higginson, Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 92-07193)
IN THE NAME OF MARVIN W MORRIS) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before May 3, 1993; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

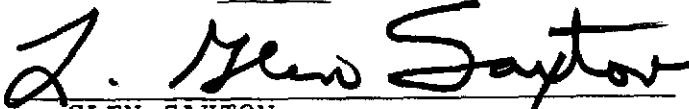

WHEREAS, the Department notified the permit holder that the permit had lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on May 21, 1993;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 92-07193 be REINSTATED with an advance in priority to January 17, 1992.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 92-07193

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

LAPSE NOTICE

RE: PERMIT NO. 92-07193

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated February 28, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Dear Permit Holder:

On April 9, 1993, the Department corresponded with you, returned your unacceptable extension requests, and explained that some information needed to be returned to the Department no later than May 6, 1993.

As of this date, the Department has not received this information. Therefore, I have begun the process to refund the \$30 you submitted in connection with these extension requests. The refund takes between four and six weeks and will arrive under separate cover.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Re: Permit Nos. 92-07191, 92-07192, and 92-07193

Dear Permit Holder:

Returned is the Request for Extension of Time submitted in reference to two of the three above mentioned permits. Unfortunately, it is unacceptable as filed. There are several problems and issues that need to be corrected. Even though you have asked for an extension on two of the permits, I have listed all three, because I believe they are interrelated.

First of all, you have not indicated how long of an extension you need. Also, the extension request was not signed. Before the Department can proceed with the analysis, you will need to notify us how long of an extension you are requesting and sign the extension request.

Permit no: 92-07191 has been issued for a groundwater source. I believe from the information you have submitted, the Department can take action on the extension request for permit no. 92-07191, once it is returned. However, permit nos. 92-07192 and 92-07193 have been issued for a surface water source (unnamed stream). The description of work you have completed on the extension request only relates to the well. It does not indicate in any way, that you have done any work on the surface water permits. Therefore, we could not take action on the request you have submitted for 92-07193.

In order to be in compliance with all of the necessary dates, several steps need to be taken. First of all, complete the highlighted areas on the returned extension and return it to the Department. Submit a new extension request, properly completed for permit no. 92-07193 and return it to the Department. Since you have already submitted the \$15 filing fee, you need only return the extension. Submit either an extension request or proof of beneficial use for permit no. 92-07192 along with the appropriate fee. All of these forms need to be returned by May 3, 1993.

PROOF DUE NOTICE

RE: PERMIT NO. 92-07193

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

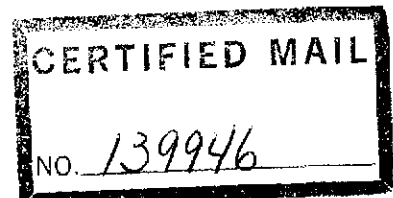

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your two Applications For Permit To Appropriate The Public Waters Of The State Of Idaho and your filing fee in the amount of \$60.00 for which a copy of receipt #N-005071 is enclosed. However I regret to inform you that the applications are not acceptable in their present form, so I am returning them to you for clarification or completion of the following:

Item #2: You must list the source of water and the name of the body of water to which it is tributary. If the stream has no name then it must be referred to as an unnamed stream.

If the source is groundwater, that water which is beneath the surface of the ground and does not naturally rise to the surface, you must list groundwater as the source.

Item #4: You must complete this item by listing the maximum rate of diversion in cubic feet per second for each use being proposed. The usual diversion rate for domestic purposes is 0.04 cfs/home. You may file for more than this amount for domestic purposes if you wish, but it may not be approved unless you provide evidence that the excess water is needed.

Item #5: You must list the total diversion rate in cfs which can not be less than the largest individual amount shown in item #4, nor larger than the sum of all uses listed in item #4.

Item #6: a. You must describe the method you plan to use to appropriate the water. Stock drinking from a live stream is the only method of developing a water right without a diversion structure.

Item #10: Describe any other water rights you possess, by number if possible. If none, then please so indicate.

Item #13: I have taken the liberty of providing a map of the section you indicated. The point of diversion and place of use must be labeled and the place of use must be outlined as well. The point of diversion and place of use must agree with items #3 and #9.
