But want Rights to be filed in case we lose Potlatch permission for some Reason. If that were to happen (lose Potlatch permission) or some other unforseen event, we would then use this spring more, as outlined in preceding application.

I am anxious to get the license as soon as possible, just so that it is done and not up in the air at all. I live here full time and can be available whenever you need me to be. You'll need to write me and tell me when the examiner is coming — I'll send you a map to my home and be here at the specified time —

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. RE: PERMIT NO. 92-07169

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully compeleted your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Ms. Barbara Dunham
Box 232
Santa, Id. 83866

Dear Ms. Dunham:

I am returning your Money Order No. 15-20 in the amount of $2.00 and your Application for Permit for completion and a $30.00 filing fee. However, before you re-submit your application, I would like to direct your attention to Item Nos. 4 and 5a. You have applied for 1.0 cfs (448.8 gallons per minute) for only 3 homes. I do not believe this Department will approve an application for domestic use for three homes, if the diversion rate exceeds 0.12 cfs (approximately 54 gallons per minute).

You mention stock and irrigation in Item No. 8a5. If you plan to use the water for these purposes, you must list them along with the rate of diversion and period of use in Item No. 4. The stock must also be listed in Item No. 8b in accordance with the enclosed instructions.

You must also complete Item Nos. 5a, 6a and 7. The total listed in Item No. 5a is not necessarily a sum of the diversion rates listed in Item No. 4, but it can not exceed that sum. To complete Item No. 6a, you must describe the method you plan to use to extract the water from the spring and convey it to your place of use. You can be allowed up to five years to complete the project and put the water to use. You must list the time you require for this purpose in Item No. 7.

If you need any assistance, please contact me at this office.

Sincerely,

TOM D. KING

Plans are tenative for some day pumping with wind mill or ram pump but use would never be large. But want Rights to be filed in case we lose Potlatch permission for some reason. If that were to happen (lose Potlatch permission) or some other unforseen event, we would then use this spring more.

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Land contract buying land from Spraggins & Berneir granting water rights to Dunhams (dated Nov '77)

10. Remarks Mainly we haul water by burro. We pump water from above mentioned Potlatch spring - with a gas pump - [redacted] No more than 50 gallons daily. Plans are tenative for some day pumping with wind mill or ram pump but use would never be large. (as needs are small) Now we use Potlatch spring but have agreement with them not to file for rights (but we'd like to) Now we don't use spring on Spraggins/Berneir land very often, but sometimes do. But want rights to be filed in case we lose Potlatch permission for some reason. If that were to happen (lose Potlatch permission) or some other unforseen event, we would then use this spring more, as outlined in preceding application.
