PROOF DUE NOTICE

RE: PERMIT NO. 92-07100

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

DEAR MR SAXTON,

I find it regrettable that I must write this letter as I have written two previous letters regarding this matter. I feel there is a lack of communication within the Department of Water Resources. If you would please contact a Rita I. Fleck, Secretary/Records Manager she will be able to supply you with the most current data as to my request for an extension of time and the status of the development of the wells. As you will see, I initiated the request for an extension back in May of this year.

Please note that the above address seems to be more reliable for me receiving your correspondence, as I never received your May 31, 1987 notice. The address in Coeur D'Alene is that of my cousin, and it seems that your previous letter must have been misplaced. Thank you for your attention to this matter.

Dear Ms FLECK

In response to your letter of 9 JULY 1987 I have completed the requested form and have enclosed the \$15 check. Please note that the delay in returning the required request form was due to my not receiving your letter until 3 AUGUST. During the month of July I was in ST Maries, Idaho working on developing my water permit. As I have stated in the request for extension, I had a well pump installed in one of two wells on 31 JULY 1987. My progress to make practical use of the wells was significantly advanced during this past July and I feel confident that the two year delay in progress caused by my assignment to the NATO BASE in Italy will be remedied not later than 31 DECEMBER 1988.

Thank you for your attention to this matter.

RE: Permit No. 92-7100

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated May 31, 1987.

Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Dear Sir,

Department of Water Resources

I am writing in regards to my Application for Permit to appropriate the public waters of the State of Idaho No. 92-7100.

I wish to request an extension of time on my application. I am serving on active duty in the U.S. Navy and due to a two year assignment to Europe, November 1983 to October 1985, I have not been able to progress with the development of my wells as planned. My required completion date is 1 August, 1987. Based on progress to date and my present military duty assignment I feel confident that a one year extension will allow me to complete development of the wells. Supporting documentation of my overseas assignment is available if required.

I may be contacted via the above address or directly by addressing correspondence to me at the following military address: VRC-30, NAS NORTH IS., FPO SAN FRANCISCO, 92135-5196.

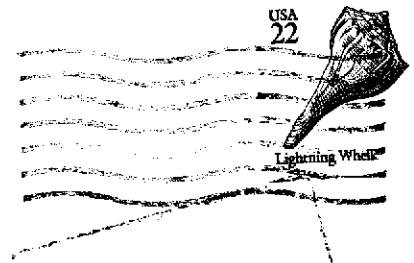

Thank you for your attention to this matter.
