Dear Mr. Bryntesen:

Re: Permit No. 92-7065

This office acknowledges receipt of your letter and the statement of beneficial use postcard for the above-referenced permit for which the source of water is groundwater.

In answer to your general questions about water rights, essentially all water in the state of Idaho including groundwater has been declared by the constitution to belong to the state of Idaho. Exceptions are springs wholly contained on private land and certain small bodies of water not exceeding five (5) acres in surface area wholly contained on private land. Your permit which has been approved is essentially the state's permission for you to divert groundwater (public water) and use it for a beneficial purpose, in this case for domestic use. The right to divert and beneficially use public water for a beneficial use is commonly termed a water right.

Since you have submitted an acceptable statement that you have diverted and used the water (proof of beneficial use) the next step in the water right development process is for the state (this department) to examine your system and ultimately issue a water right license.

If you have any questions concerning this matter, please feel free to contact this office or our Northern Region.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Sir,

per-92-7063

Your letter finally caught up with me here in Yuma, Ariz.

~~CONFIDENTIAL~~

It seems that I have made a mistake. I thought the past Card you sent me was in reference to the permit to pump water from the St. Joe River.

In 1979 we filed for water rights to our well. The well and houses had already been completed, although there are 7 houses not 8. I can't imagine why 8 was put in the papers.
{ Also having water rights

If to our well on our property
Constitute having a permit to
use public water? Is all water
in Idaho public water? It
is growing up around up and
I would hate to lose our well
because of blasting up on the
hill.

Is there some way we can
continue this permit? We do
not intend to build another
house. So the work is totally
completed.

If you could let me know
as soon as possible. We are
leaving for Mexico the first of
Jan. (we hope) The address here

is :

A. M. Brynteson

1173 S. Sara Ave.

Yuma, Ariz. 85364

I really hope this can be
cleared up, with^{out} losing the
water rights.

Sorry, to have made such
a mix up.

In Jesus Love,

Mrs. A. Brynteson

Dear Mr. Bryntesen:

Re: Permit No. 92-7063

Enclosed is the beneficial use postcard submitted to this office on October 5, 1984. Also enclosed is a copy of the permit and blank postcard.

Note that the permit proposes the diversion of water from a groundwater source for eight domestic households. The postcard indicates water being diverted from the St. Joe River for domestic and irrigation purposes. I need to know if the project as proposed under the permit has been completed and if the water is being put to a beneficial use? If so, complete and return the blank postcard. If not and you meet the qualifications necessary to request an additional period of time, complete and return the request for extension of time form along with the \$15 filing fee.

If I receive no response by December 1, 1984, I will assume the project has been abandoned and will lapse the permit. Within sixty days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

If you have any questions concerning this matter, please feel free to contact this office.
