Mr. David Masterjohn
Route 4, Box 152

Dear Mr. Masterjohn:

An Application for a Permit is used to request permission to start taking water from a stream or groundwater source. You indicated that the system has been in use for approximately 40 years. If this is the case, then you should file a Claim to a Water Right, a copy of which is enclosed along with instructions. However, since you are unsure of the amount of irrigation that has been done in the past, I have enclosed an additional Application for Permit to allow you to file for new or additional irrigation.

Whichever way you decide to file, there is some information lacking from the original Application you filed which must be included on the Claim and/or Application.

You must describe the point of diversion by describing the 40-acre tract within which your dam is located. For instance, the SE¹ of the NE¹ of Section, etc. The place of use must be described in the same manner.

You must list the amount of water you divert in cubic feet per second, or gallons per minute. The normal amount for one household is 0.04 cfs, for 20 chickens it is 0.02 cfs, and for irrigation the maximum under law is 0.02 cfs per acre.

If you file the Claim, you must indicate in Item 5A the number of acres that have been irrigated for the last 40 years. You must also list in Item 1 the date the water was first put to use. If there was no irrigation in the past, or if you plan to increase the amount of irrigated acreage, you must file an Application for irrigation rights.

I am returning your Money Order No. 15-20 and Application for Permit to allow you to refile either the application and/or claim.

If I can be of any further assistance, please contact me at this office.

Sincerely,

Dear Mr. Masterjohn:

Permit No. 92-7047 is for diversion of water from Peterson Creek for domestic purposes of a single family dwelling and domestic recreational pond. If you improvements lead to more or other uses, you must file a new application for the additional uses.

If you have filed all other water rights which you may possess, then you need not worry about the notification of date and fee changes. This notice was mailed to all land owners outside established subdivisions or city limits.

If you have any other questions, please contact me at this office.

Sincerely,

TOM D. KING

SUBJECT

I have labeled this Application as surface water, since the intent of the Applicant is to dig a hole (36" Dia x 18' deep) beside the creek and take advantage of natural filtration through percolation. The Applicant has stated that if the percolation of the stream is not sufficient to fill the hole (catch basin?) he will abandon the hole and take the water from the stream via 3' high wooden dam pump & pipeline.
