RE: The above called in reference to
our prior discussion concerning the addition
of Little Carpenter Creek to the license.

A careful review had been made of
the permit and Memorandum Decision
to determine if Little Carpenter Creek should
be included as the permit holder had indicated
it should be. This review however could
not find any concrete evidence that the
said source should have been included.

Therefore with the concurrence with Dan
Tutthill we elected not to allow
the permit to be amended to include
the said source and issue the license
as prepared.

Mr. Dickinson became very upset when
informed and threatened that if any water resource
employees attempted to regulate his diversion
"he would shoot them." In my opinion he
came very unrationable and was no longer
able to discuss ~~discuss~~ his situation.

Dear Mr. King

In regard to your letter of April 5, 1982 saying we need a liscense. Our water right # 92-7040 is approved. Proof of construction of works was to be submitted on or before Oct. 1, 1979.

We have a letter of April 6, 1979 signed by Robert G. Haynes, stating "Proof of benifeecial use for your application has already been filed, because you are presently using the water"

A Jan. 2, 1979 letter from Robert G. Haynes - Proof of application of water to benifeecial use is signed by a notary and returned and approved Oct. 1, 1979. Pursuant to Memorandum Decision and Order. C. Steven Allred- Director.

The letter of April 5, 1982 from Tom D. King says the final stage of the permit process is issuing a license and that calls for another inspection of the water system, so I called your office June 1, 1982 and a Ken Nobloek talked to me and he said no license is issued, that it is something to do with Boise.

We stated at that time that we were ready for the inspection in April when we got your letter it was too wet.

It has been nearly 3 weeks since I told him we were ready so why hasn't some from your office showed up to inspect and give me a license?

I would appreciate an immediate response from your office on this matter. Either I do or do not need a liscense. Make up your minds. Call and let me know when you will be here to inspect so that I can make a point of being home. Bring the liscense with you.

Perhaps you and Bud McCall have both decided that no one is to have water out of this creek?

If so send back my \$25.00 I pd in fees, and I will use the water anyway, and if you don't like it you come out in person and stop me O.K.?

Dear Mr. Dickinson:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your Application No. 92-7040. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If this office can be of any further assistance, please contact us.

I am writing in regards to the application for water permit and claim to water rights for Monty Dickinson, application # 92-7040 on unnamed stream tributary to little Carpenter Creek.

We also use the water from that creek and since it is not a very large stream we disagree with the amount being asked for.
